FOREWORD

The American Medical Directory contains a list of the licensed medical practitioners of the United States, its possessions and Canada, with verified professional information regarding each individual, all treated impartially. The statements regarding graduation from medical schools and licensure have been verified by official alumni lists from medical schools and reports from state licensing boards. Fellowship and Membership in the American Medical Association and in special national societies are indicated, the information having been secured from officials of these organizations. Specialties practiced by physicians are included, based on personal data furnished by the physicians.

LEARN WHAT THE DIRECTORY CONTAINS.—This Directory contains a large amount of information, much of which will be lost to the user unless he familiarizes himself with the Contents on page 3 and the Index on page 2.

BECOME FAMILIAR WITH THE SYMBOLS AND ABBREVIATIONS.—The large amount of information regarding each physician would require several times the amount of space now used were it not for the liberal use of symbols and abbreviations. The reader, therefore, should become familiar with the key to specialties, abbreviations and symbols on pages 6 and 7.

NUMBER OF PHYSICIANS.—There are 168,201 names in this Directory. Although 11,793 new names have been added to this edition, the actual increase over the number in Volume Ten is 4,199, due to the fact that 6,844 have died and the number of those physicians whose addresses were unknown has been reduced; see table, page 8.

FOREIGN SECTION.—A new feature in this edition is the list of American physicians located in foreign countries, including physicians who are abroad for the purpose of study, engaged in research work, workers in the medical missionary field, physicians employed by industrial concerns and those temporarily in practice but maintaining a residence in the United States. This list appears on pages 1689 to 1695.

SPECIAL LICENSING BOARDS.—In this edition licensure by the National Board of Medical Examiners and certification by the American Board for Ophthalmic Examinations and the American Board of Otolaryngology is included in the data following the physician's name. The names of the officers of these boards and information regarding the laws and fees of the examinations are to be found on page 36. Licentiates of the American Board for Ophthalmic Examinations and the American Board of Otolaryngology are also listed under Special Societies, pages 99 to 108.

MEDICAL COLLEGES.—Complete information is given regarding 456 medical colleges, a few of which were fraudulent. The key list appears inside the front cover, the names of the eighty-five medical colleges now in existence in the United States and Canada being in black faced type. An alphabetical list of all colleges appears on pages 19 to 22, and full descriptions of all colleges on pages 23 to 32. Approved graduate medical colleges are listed on pages 32 and 33. The key list of foreign medical colleges appears on pages 33 to 35.

HOSPITALS.—The hospitals in each state precede the list of physicians. There are 7,542 hospitals in the United States and its dependencies, Canada and Newfoundland. The 627 hospitals approved by the Council on Medical Education and Hospitals for the training of interns are listed on pages 37 to 44, followed by a list of 297 hospitals approved for residencies in specialties, pages 45 to 48; for number of hospitals by state see table, page 8.

LABORATORIES.—This list contains the names of 175 qualified pathologists who are conducting clinical pathological laboratories approved by the Council on Medical Education and Hospitals; see pages 49 and 50.

OTHER VALUABLE DATA.—In addition to the features mentioned above, the Directory includes information on medical officers in the Government Service, medical libraries and medical journals and data regarding the American Medical Association. The introductory matter to each state gives the code and a digest of the law governing medical practice; licensing boards; state board of health; city, county and district health officers; officers of constituent state societies and component county or district medical societies.

APPRECIATION.—To the secretaries of the various medical licensing boards of the United States and Canada, to the deans of medical colleges, to the officers of component county societies and constituent state associations, to the thousands of physicians and correspondents who have so cordially assisted in making possible this edition—we extend our thanks and express our appreciation.

EXPLANATORY NOTES

The directory contains an enormous amount of information of various kinds, but this fact will not be appreciated unless the reader studies the Index on Page 2 and Contents on Page 3. To save space, symbols and abbreviations have been liberally used; it is important that the reader thoroughly familiarize himself with these, as well as with the various departments of the directory. The information is here, but much of it is available only through the use of the key on Page 7.

The Foreign List follows the geographical section of United States and Canada. The addresses following these names in the Index indicate the portion of the Directory where complete information regarding these physicians will be found.

Addresses Unknown (Page 1696)

It has been deemed advisable to include in this edition an alphabetical list of physicians, with data, whose present locations are unknown. These names appear in the Index, followed by the symbol §.

Population

Population given at the beginning of each state is the estimate made by the Bureau of Census, Washington, D. C., July 1, 1928. Population given after each city in the United States is obtained from the census of 1920, except in cases where a special census has been taken or an estimate made.

(S. C. 1928)—Special census taken 1928. (E. P. 1926)—Estimated population of 1926.

Saint, Fort, Mount and Port, R. D. and Neighboring P. O.

Names of cities and towns are printed according to the Official Postal Guides of the United States and Canada. The prefix Saint is abbreviated, as St. Louis, but is filed as, Saint. Fort, Mount and Port are spelled out and are arranged in alphabetical order. (R.D.) is given in all places receiving mail by rural delivery; (P.O.) in all places receiving mail at neighboring postoffices. These postoffices must always be used when addressing physicians in such places.

Special Licensing Boards

National Board of Medical Examiners.—Licensure by this board is included in the data following the physician's name (N.B.'26—licensed by National Board of Medical Examiners 1926).

American Board for Ophthalmic Examinations and American Board of Otolaryngology.—In this edition certification by the American Board for Ophthalmic Examinations and the American Board of Otolaryngology is included in the data following the physician's name and indicated by B6 and B7, respectively. The physicians' names are also listed under Special Societies, pages 99 to 108.

Sec. 2. TO ESTABLISH BUREAU OF HEALTH AND PUBLIC INSTRUCTION: The Board of Trustees shall establish a bureau, to be known as the Bureau of Health and Public Instruction, to carry on such activities in the field of health and the dissemination of information in relation thereto as the House of Delegates may direct or the Board of Trustees, in the absence of such directions, may determine. Special committees may be created by the House of Delegates to perform the special functions for which they are created; they shall be appointed by the Speaker unless otherwise ordered by the House. Committees acting during the interval between the sessions of the House of Delegates shall be subject to the Board of Trustees. In case of vacancies in committees occurring during the interval between annual sessions, the President or the Speaker, according to the committee on which said vacancies occur, shall have the power to appoint Fellows to fill the vacancies until the next annual session.

The Speaker of the House of Delegates may appoint from the members of the House such additional committees as he may deem expedient in advance of the annual meeting to expedite the business of the House of Delegates. All such committees shall be subject to the approval of the House of Delegates. (Amended, 1923.)

Sec. 2. MEMBERSHIP COMMITTEES: Any Fellow shall be eligible to serve on standing or special committees. Reference committees shall be appointed from the members of the House of Delegates. Members of committees not members of the House of Delegates shall have the right to present their reports in person to the House and to participate in the debate thereon, but shall not have the right to vote. The members of the Council on Scientific Assembly shall be chosen, as far as practical, from ex-section officers representing different sections. The President-Elect, the Secretary of the Association and the Editor of The Journal shall be ex officio members of this Council. (Amended, 1925.)

Sec. 2. (Amended, 1923.)

Sec. 3. EXPENDITURES: Each Council shall submit to the Board of Trustees a budget of its expenses for the fiscal year, and the Board shall make such appropriation for each Council as it may see fit. Each Council shall be limited in its expenditures to the appropriation made for it by the Board of Trustees and no Council shall expend or contract to expend any money in excess of its appropriation without the consent and approval in writing of the Board of Trustees.

Sec. 4. RULES AND REGULATIONS: Each Council may make its own rules to govern its action; such rules shall not conflict with these By-Laws nor with standing rules or resolutions of the House of Delegates.

SCIENTIFIC ASSEMBLY

Membership and Fellowship

Chapter XI.—Membership and Fellowship

Section 1. TENURE OF MEMBERSHIP: Membership in this Association shall continue only so long as the individual is a member of a constituent association. When the Secretary shall be officially informed by the secretary of the constituent association through which a member holds membership in this Association that the member is not in good standing, the Secretary shall remove the name of said member from the membership roll of the American Medical Association. A member of a constituent association who removes to and engages in the practice of medicine at a location in another state in which there is a constituent association, shall forfeit his membership in this Association and the Secretary shall remove his name from the roster of members of the American Medical Association unless within one year after such change of residence he becomes a member of the constituent association in the state to which he has moved; provided that when the member is also a Fellow of the Scientific Assembly the By-Law defining the effect on Fellowship of removal to another state shall have precedence over this section.

Sec. 2. FELLOWS: Any member of this Association, who on the prescribed form shall apply for Fellowship and subscribe for The Journal, paying the annual Fellowship dues for the current year, shall be a Fellow.

Commissioned medical officers of the United States Army, United States Navy and the United States Public Health Service shall be Fellows of this Association so long as they are engaged actively in their respective service, and thereafter if they have been retired on account of age or physical disability, or, after long and honorable service, under the provisions of an Act of Congress. These Fellows shall not be required to pay Fellowship dues and shall not receive The Journal of the American Medical Association except by personal subscription. (Amended, 1924.)

Sec. 3. EFFECT ON FELLOWSHIP OF REMOVAL TO ANOTHER STATE: A Fellow who changes the location at which he practices medicine, from the state through whose constituent association he holds membership in the American Medical Association to another state in which there is a constituent association, is eligible to membership in the component society of his new location on the presentation of a transfer card and an official statement that his dues have been paid in full in the society in which he holds membership; provided that no evidence which would otherwise disqualify him for membership arise. He shall forfeit his Fellowship in the American Medical Association one year after such change of location unless he becomes a member of the constituent association of the state to which he has moved. Provided, however, that if the component society into whose territory such Fellow has moved shall refuse him membership, the Fellow shall be privileged to appeal to the Judicial Council of this Association to determine whether or not he be guilty of any act that warrants the enforcement of the provisions of this section. Pending the decision of such appeal he shall retain his Fellowship in the American Medical Association through his original state association. A member of a constituent state association who is located for the purpose of practicing medicine in a state adjacent to that through the association of which he holds Fellowship in the American Medical Association may become and may be continued a Fellow of the American Medical Association, provided the council of the constituent association of the state in which he is practicing medicine waives jurisdiction over his membership.

Sec. 4. AFFILIATE, ASSOCIATE AND HONORARY FELLOWS: There shall be Affiliate, Associate and Honorary Fellows, who shall be elected and shall qualify in accordance with the provisions set forth in these By-Laws.

Sec. 5. AFFILIATE FELLOWS: A Fellow who has been a Fellow for a continuous term of fifteen (15) years, who is not less than sixty-five (65) years of age, and who is an honorary member of his component society and of his constituent association, or is connected with these organizations in an equivalent manner whereby he is relieved from the payment of dues or fees, on request of his constituent association may be made an Affiliate Fellow by a majority vote of the House of Delegates of this Association. Affiliate Fellows shall be privileged to participate in the Scientific Assembly of the Association; they shall not be required to pay Fellowship dues and shall not receive The Journal of the American Medical Association except by personal subscription. Affiliate Fellowship shall be conditioned on such an Affiliate Fellow continuing the relationship with his constituent association herein defined.

Sec. 6. ASSOCIATE FELLOWS: The following may be elected in accordance with Section 5, Chapter IV, to Associate Fellowship: Physicians who are members of the chartered national medical societies of foreign countries adjacent to the United States; American physicians located in foreign countries and engaged in medical missionary and similar educational and philanthropic labors; dentists holding the degree of D.D.S. who are members of state or local dental societies, pharmacists who are active members of the American Pharmaceutical Association; and representative teachers and students of science allied to medicine, resident in the United States, and not eligible to regular membership. Associate Fellows shall enjoy the same privileges as regular Fellows, and shall be subject to the same conditions.

Sec. 7. HONORARY FELLOWS: Physicians of foreign countries may be elected Honorary Fellows by the House of Delegates in accordance with Section 6, Chapter IV.

Sec. 8. INVITED GUESTS: Scientists resident in the United States who are not engaged in the practice of medicine, and eminent physicians and scientists from foreign countries, may be invited by the general officers or by the officers of a section, to attend an annual session of the Scientific Assembly and participate in the scientific work and social functions. They shall be designated as Invited Guests.

Sec. 9. TENURE OF FELLOWSHIP: Fellowship in this Association shall continue only so long as the individual is a member. When the Secretary shall be officially informed that the Fellow is not a member, the Secretary shall remove the name of such Fellow from the Fellowship roll of the American Medical Association and shall notify the Fellow of the action taken, together with the reason therefor. Fellowship shall be further conditioned on a Fellow conducting himself in accordance with this Constitution and By-Laws, and the Principles of Medical Ethics of this Association.

Sec. 10. DELINQUENCY: Any Fellow who, for one year, has failed to pay his annual Fellowship dues, shall forfeit his Fellowship thirty days after notice of his delinquency has been mailed to his last known address by the Secretary.

Sec. 11. FELLOWSHIP RESTORED: Any former Fellow who complies with Section 2, Chapter XI, shall be reinstated on payment of his indebtedness, including his subscription for the current calendar year.

Sec. 12. INFRACTIONS OF CONSTITUTION, BY-LAWS OR PRINCIPLES OF MEDICAL ETHICS: The House of Delegates shall have the power to discipline or expel a member of the American Medical Association or a Fellow of its Scientific Assembly on recommendation of the Judicial Council. (Adopted, 1928.)

Chapter XII.—Registration

Fellows, Affiliate, Associate and Honorary Fellows, and Invited Guests only shall be allowed to register or take part in the work of any of the sections of the Scientific Assembly of the Association.

A Fellow shall be eligible to register at an annual session only after he has paid all of his current indebtedness.

A Fellow shall not be permitted to take part in the proceedings of the Association or of any of the sections until he has registered his name and address in the registration office.

A Fellow on registering shall designate the section in which he wishes to be enrolled, but shall be enrolled in one section only at any Scientific Assembly.

Sec. 11. LENGTH OF PAPERS AND DISCUSSIONS: The time allowed for the presentation of a paper before a section shall be limited to fifteen minutes. No one shall discuss any paper more than once, nor for longer than five minutes, except with the unanimous consent of those present. Chapter XIX.—Amendment to These By-Laws

These By-Laws may be amended on a three fourths vote of the House of Delegates, provided that no amendment shall be acted on till the day following that on which it is introduced; except that the Board of Trustees may, by unanimous vote make such changes, and such changes only, as may be required to adapt them to the rules and regulations of the United States postal authorities.

PRINCIPLES OF MEDICAL ETHICS

CHAPTER I.—THE DUTIES OF PHYSICIANS TO THEIR PATIENTS

The Physician's Responsibility

Section 1. A profession has for its prime object the service it can render to humanity; reward or financial gain should be a subordinate consideration. The practice of medicine is a profession. In choosing this profession an individual assumes an obligation to conduct himself in accord with its ideals.

Patience, Delicacy and Secrecy

Sec. 2. Patience and delicacy should characterize all the acts of a physician. The confidences concerning individual or domestic life entrusted by a patient to a physician and the defects of disposition or flaws of character observed in patients during medical attendance should be held as a trust and should never be revealed except when imperatively required by the laws of the state. There are occasions, however, when a physician must determine whether or not his duty to society requires him to take definite action to protect a healthy individual from becoming infected, because the physician has knowledge, obtained through the confidences entrusted to him as a physician, of a communicable disease to which the healthy individual is about to be exposed. In such a case, the physician should act as he would desire another to act toward one of his own family under like circumstances. Before he determines his course, the physician should know the civil law of his commonwealth concerning privileged communications.

Prognosis

Sec. 3. A physician should give timely notice of dangerous manifestations of the disease to the friends of the patient. He should neither exaggerate nor minimize the gravity of the patient's condition. He should assure himself that the patient or his friends have such knowledge of the patient's condition as will serve the best interests of the patient and the family.

Patients Must Not Be Neglected

Sec. 4. A physician is free to choose whom he will serve. He should, however, always respond to any request for his assistance in an emergency or whenever temperate public opinion expects the service. Once having undertaken a case, a physician should not abandon or neglect the patient because the disease is deemed incurable; nor should he withdraw from the case for any reason until a sufficient notice of a desire to be released has been given the patient or his friends to make it possible for them to secure another medical attendant.

CHAPTER II.—THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSON AT LARGE

Article I.—Duties to the Profession

Uphold Honor of Profession

Section 1. The obligation assumed on entering the profession requires the physician to comport himself as a gentleman and demands that he use every honorable means to uphold the dignity and honor of his vocation, to exalt its standards and to extend its sphere of usefulness. A physician should not base his practice on an exclusive dogma or sectarian system, for "sects are implacable despots; to accept their thraldom is to take away all liberty from one's action and thought." (Nicon, father of Galen.)

Medical Societies

Sec. 2. In order that the dignity and honor of the medical profession may be upheld, its standards exalted, its sphere of usefulness extended, and the advancement of medical science promoted, a physician should associate himself with medical societies and contribute his time, energy and means in order that these societies may represent the ideals of the profession.

Sec. 3. A physician should be "an upright man, instructed in the art of healing." Consequently, he must keep himself pure in character and conform to a high standard of morals, and must be diligent and conscientious in his studies. "He should also be modest, sober, patient, prompt to do his whole duty without anxiety; pious without going so far as superstition, conducting himself with propriety in his profession and in all the actions of his life." (Hippocrates.)

Advertising

Sec. 4. Solicitation of patients by physicians as individuals, or collectively in groups by whatsoever name these be called, or by institutions or organizations, whether by circulars or advertisements, or by personal communications, is unprofessional. This does not prohibit ethical institutions from a legitimate advertisement of location, physical surroundings and special class—if any—of patients accommodated. It is equally unprofessional to procure patients by indirection through solicitors or agents of any kind, or by indirect advertisement, or by furnishing or inspiring newspaper or magazine comment concerning cases in which the physician has been or is concerned. All other like self-laudations defy the traditions and lower the tone of any profession and so are intolerable. The most worthy and effective advertisement possible, even for a young physician, and especially with his brother physicians, is the establishment of a well-merited reputation for professional ability and fidelity. This cannot be forced, but must be the outcome of character and conduct. The publication or circulation of ordinary simple business cards, being a matter of personal taste or local custom, and sometimes of convenience, is not **per se** improper. As implied, it is unprofessional to disregard local customs and offend recognized ideals in publishing or circulating such cards.

It is unprofessional to promise radical cures; to boast of cures and secret methods of treatment or remedies; to exhibit certificates of skill or of success in the treatment of diseases; or to employ any methods to gain the attention of the public for the purpose of obtaining patients.

Patents and Perquisites

Sec. 5. It is unprofessional to receive remuneration from patents for surgical instruments or medicines; to accept rebates on prescriptions or surgical appliances, or perquisites from attendants who aid in the care of patients.

Medical Laws—Secret Remedies

Sec. 6. It is unprofessional for a physician to assist unqualified persons to evade legal restrictions governing the practice of medicine; it is equally unethical to prescribe or dispense secret medicines or other secret remedial agents, or manufacture or promote their use in any way.

Safeguarding the Profession

Sec. 7. Physicians should expose without fear or favor, before the proper medical or legal tribunals, corrupt or dishonest conduct of members of the profession. All questions affecting the professional reputation or standing of a member or members of the medical profession should be considered only before proper medical tribunals in executive sessions or by special or duly appointed committees on ethical relations. Every physician should aid in safeguarding the profession against the admission to its ranks of those who are unfit or unqualified because deficient either in moral character or education.

Article II.—Professional Services of Physicians to Each Other

Physicians Dependent on Each Other

Section 1. Experience teaches that it is unwise for a physician to treat members of his own family or himself. Consequently, a physician should always cheerfully and gratuitously respond with his professional services to the call of any physician practicing in his vicinity, or of the immediate family dependents of physicians.

Compensation for Expenses

Sec. 2. When a physician from a distance is called on to advise another physician or one of his family dependents, and the physician to whom the service is rendered is in easy financial circumstances, a compensation that will at least meet the traveling expenses of the visiting physician should be proffered. When such a service requires an absence from the accustomed field of professional work of the visitor that might reasonably be expected to entail a pecuniary loss, such loss should, in part at least, be provided for in the compensation offered.

One Physician to Take Charge

Sec. 3. When a physician or a member of his dependent family is seriously ill, he or his family should select a physician from among his neighboring colleagues to take charge of the case. Other physicians may be associated in the care of the patient as consultants.

Article III.—Duties of Physician in Consultations

Consultations Should be Encouraged

Section 1. In serious illness, especially in doubtful or difficult conditions, the physician should request consultations.

Consultation for Patient's Benefit

Sec. 2. In every consultation, the benefit to be derived by the patient is of first importance. All the physicians interested in the case should be frank and candid with the patient and his family. There never is occasion for insincerity, rivalry or envy and these should never be permitted between consultants.

Punctuality

Sec. 3. It is the duty of a physician, particularly in the instance of a consultation, to be punctual in attendance. When, however, the consultant or the physician in charge is unavoidably delayed, the one who first arrives should wait for the other for a reasonable time, after which the consultation should be considered postponed. When the consultant has come from a distance, or when for any reason it will be difficult to meet the physician in charge at another time, or if the case is urgent, or if it be the desire of the patient, he may examine the patient and mail his written opinion, or see that it is delivered under seal, to the physician in charge. Under these conditions, the consultant's conduct must be especially tactful; he must remember that he is framing an opinion without the aid of the physician who has observed the course of the disease.

Patient Referred to Specialist

Sec. 4. When a patient is sent to one specially skilled in the care of the condition from which he is thought to be suffering, and for any reason it is impracticable for the physician in charge of the case to accompany the patient, the physician in charge should send to the consultant by mail, or in the care of the patient under seal, a history of the case, together with the physician's opinion and an outline of the treatment, or so much of this as may possibly be of service to the consultant; and as soon as possible after the case has been seen and studied, the consultant should address the physician in charge and advise him of the results of the consultant's investigation of the case. Both these opinions are confidential and must be so regarded by the consultant and by the physician in charge.

Discussions in Consultation

Sec. 5. After the physicians called in consultation have completed their investigations of the case, they should meet by themselves to discuss conditions and determine the course to be followed in the treatment of the patient. No statement or discussion of the case should take place before the patient or friends, except in the presence of all the physicians attending, or by their common consent; and no opinions or prognostications should be delivered as a result of the deliberations of the consultants, which have not been concurred in by the consultants at their conference.

Attending Physician Responsible

Sec. 6. The physician in attendance is in charge of the case and is responsible for the treatment of the patient. Consequently, he may prescribe for the patient at any time and is privileged to vary the mode of treatment outlined and agreed on at a consultation whenever, in his opinion, such a change is warranted. However, at the next consultation, he should state his reasons for departing from the course decided on at the previous conference. When an emergency occurs during the absence of the attending physician, a consultant may provide for the emergency and the subsequent care of the patient until the arrival of the physician in charge, but should do no more than this without the consent of the physician in charge.

Conflict of Opinion

Sec. 7. Should the attending physician and the consultant find it impossible to agree in their view of a case another consultant should be called to the conference or the first consultant should withdraw. However, since the consultant was employed by the patient in order that his opinion might be obtained, he should be permitted to state the result of his study of the case to the patient, or his next friend in the presence of the physician in charge.

Consultant and Attendant

Sec. 8. When a physician has attended a case as a consultant, he should not become the attendant of the patient during that illness except with the consent of the physician who was in charge at the time of the consultation.

Article IV.—Duties of Physicians in Cases of Interference

Criticism to Be Avoided

Section 1. The physician, in his intercourse with a patient under the care of another physician, should observe the strictest caution and reserve; should give no disingenuous hints relative to the nature and treatment of the patient's disorder; nor should the course of conduct of the physician, directly or indirectly, tend to diminish the trust reposed in the attending physician. In embarrassing situations, or wherever there may seem to be a possibility of misunderstanding with a colleague, the physician should always seek a personal interview with his fellow.

Social Calls on Patient of Another Physician

Sec. 2. A physician should avoid making social calls on those who are under the professional care of other physicians without the knowledge and consent of the attendant. Should such a friendly visit be made, there should be no inquiry relative to the nature of the disease or comment upon the treatment of the case, but the conversation should be on subjects other than the physical condition of the patient.

Services to Patient of Another Physician

Sec. 3. A physician should never take charge of or prescribe for a patient who is under the care of another physician, except in an emergency, until after the other physician has relinquished the case or has been properly dismissed.

Criticism to Be Avoided

Sec. 4. When a physician does succeed another physician in the charge of a case, he should not make comments on or insinuations regarding the practice of the one who preceded him. Such comments or insinuations tend to lower the esteem of the patient for the medical profession and so react against the critic.

Emergency Cases

Sec. 5. When a physician is called in an emergency and finds that he has been sent for because the family attendant is not at hand, or when a physician is asked to see another physician's patient because of an aggravation of the disease, he should provide only for the patient's immediate need and should withdraw from the case on the arrival of the family physician after he has reported the condition found and the treatment administered.

When Several Physicians Are Summoned

Sec. 6. When several physicians have been summoned in a case of sudden illness or of accident, the first to arrive should be considered the physician in charge. However, as soon as the exigencies of the case permit, or on the arrival of the acknowledged family attendant or the physician the patient desires to serve him, the first physician should withdraw in favor of the chosen attendant; should the patient or his family wish some one other than the physician known to be the family physician to take charge of the case the patient should advise the family physician of his desire. When, because of sudden illness or accident, a patient is taken to a hospital, the patient should be returned to the care of his known family physician as soon as the condition of the patient and the circumstances of the case warrant this transfer.

A Colleague's Patient

Sec. 7. When a physician is requested by a colleague to care for a patient during his temporary absence, or when, because of an emergency, he is asked to see a patient of a colleague, the physician should treat the patient in the same manner and with the same delicacy as he would have one of his own patients cared for under similar circumstances. The patient should be returned to the care of the attending physician as soon as possible.

Relinquishing Patient to Regular Attendant

Sec. 8. When a physician is called to the patient of another physician during the enforced absence of that physician, the patient should be relinquished on the return of the latter.

Substituting in Obstetric Work

Sec. 9. When a physician attends a woman in labor in the absence of another who has been engaged to attend, such physician should resign the patient to the one first engaged, upon his arrival; the physician is entitled to compensation for the professional services he may have rendered.

Article V.—Differences Between Physicians

Arbitration

Section 1. Whenever there arises between physicians a grave difference of opinion which cannot be promptly adjusted, the dispute should be referred for arbitration to a committee of impartial physicians, preferably the Board of Censors of a component county society of the American Medical Association.

Article VI.—Compensation

Limits of Gratuitous Service

Section 1. The poverty of a patient and the mutual professional obligation of physicians should command the gratuitous services of a physician. But endowed institutions and organizations for mutual benefit, or for accident, sickness and life insurance, or for analogous purposes, have no claim upon physicians for unremunerated services.

Contract Practice

Sec. 2. It is unprofessional for a physician to dispose of his services under conditions that make it impossible to render adequate service to his patient or which interfere with reasonable competition among the physicians of a community. To do this is detrimental to the public and to the individual physician, and lowers the dignity of the profession.

Secret Division of Fees Condemned

Sec. 3. It is detrimental to the public good and degrading to the profession, and therefore unprofessional, to give or to receive a commission. It is also unprofessional to divide a fee for medical advice or surgical treatment, unless the patient or his next friend is fully informed as to the terms of the transaction. The patient should be made to realize that a proper fee should be paid the family physician for the service he renders in determining the surgical or medical treatment suited to the condition, and in advising concerning those best qualified to render any special service that may be required by the patient.

CHAPTER III.—THE DUTIES OF THE PROFESSION TO THE PUBLIC

Physicians as Citizens

Section 1. Physicians, as good citizens and because their professional training specially qualifies them to render this service, should give advice concerning the public health of the community. They should bear their full part in enforcing its laws and sustaining the institutions that advance the interests of humanity. They should cooperate especially with the proper authorities in the administration of sanitary laws and regulations. They should be ready to counsel the public on subjects relating to sanitary police, public hygiene and legal medicine.

Public Health

Sec. 2. Physicians, especially those engaged in public health work, should enlighten the public regarding quarantine regulations; on the location, arrangement and dietaries of hospitals, asylums, schools, prisons and similar institutions; and concerning measures for the prevention of epidemic and contagious diseases. When an epidemic prevails, a physician must continue his labors for the alleviation of suffering people, without regard to the risk to his own health or life or to financial return. At all times, it is the duty of the physician to notify the properly constituted public health authorities of every case of communicable disease under his care, in accordance with the laws, rules and regulations of the health authorities of the locality in which the patient is.

Public Warned

Sec. 3. Physicians should warn the public against the devices practiced and the false pretensions made by charlatans which may cause injury to health and loss of life.

Pharmacists

Sec. 4. By legitimate patronage, physicians should recognize and promote the profession of pharmacy; but any pharmacist, unless he be qualified as a physician, who assumes to prescribe for the sick, should be denied such countenance and support. Moreover, whenever a druggist or pharmacist dispenses deteriorated or adulterated drugs, or substitutes one remedy for another designated in a prescription, he thereby forfeits all claims to the favorable consideration of the public and physicians.

Conclusion

While the foregoing statements express in a general way the duty of the physician to his patients, to other members of the profession and to the profession at large, as well as of the profession to the public, it is not to be supposed that they cover the whole field of medical ethics, or that the physician is not under many duties and obligations besides these herein set forth. In a word, it is incumbent on the physician that under all conditions, his bearing toward patients, the public and fellow practitioners should be characterized by a gentlemanly deportment and that he constantly should behave toward others as he desires them to deal with him. Finally, these principles are primarily for the good of the public and their enforcement should be conducted in such a manner as shall deserve and receive the endorsement of the community.

AMERICAN BOARD FOR OPHTHALMIC EXAMINATIONS

This Board was incorporated May 3, 1917. It has nine members, three each from the American Ophthalmological Society, the Section on Ophthalmology of the American Medical Association, and the American Academy of Ophthalmology and Oto-Laryngology.

THE FUNCTIONS OF THE BOARD ARE: 1. To establish standards of fitness to practice ophthalmology. 2. To arrange, control and conduct examinations to test the qualifications of those who desire to practice ophthalmology, and to confer a certificate upon those who meet the established standards.

EXAMINATIONS.—Examinations will be held annually at or near the time and place of meeting of the American Medical Association, and at other times and places at the discretion of the board, depending on the number of applications from any region.

FEES.—The fee for examination is $25 but its payment will not be required before the board is ready to issue the certificate.

APPLICANTS.—Applicants for examination and for the certificate of the board are divided into three classes according to the length of time they have practiced opthalmology.

Class I. Those who have practiced ophthalmology ten years or more.

Class II. Those who have practiced ophthalmology five years and less than ten years.

Class III. Those who have practiced ophthalmology less than five years.

The following are the general requirements of the board: (1) For all classes, high ethical and medical standing in their communities, and also a medical degree satisfactory to the board. (2) Formal application on a proper blank with two letters of endorsement by well-known medical men.

The additional requirements for the three classes are as follows:

Class I. (a) Presentation of reports of ten cases that have been observed or treated by the applicant. (b) A list of papers or books published, if any. The board will determine from such case reports and published records, and from the candidate's professional work in his community, whether further examination will be necessary before conferring its certificate.

Class II. Report of at least ten cases that have been observed and treated by the applicant. If the applicant gives evidence of service as an intern in an ophthalmic hospital, or as an assistant to an eye clinic, or with an ophthalmologist in private work, with a statement of the work required by the position, the board will consider these qualifications in determining whether it deems it necessary to subject the candidate to further examination.

Class III. (a) A degree from a medical school of high standing, satisfactory to the board of examiners and also a year of clinical hospital experience, preferably in a general hospital or one year of laboratory work preliminary to special study of ophthalmology and service as opthalmic intern. (b) Certificates showing one year of special study of ophthalmology under competent instructors or in accepted institutions for graduate teaching, not necessarily continuous nor at the same place, but periods of study of less than three months at one institution are deprecated by the board. (c) A certificate of one year's service in an ophthalmic clinic or an internship of one year in an ophthalmic hospital or assistantship in private practice with statement of the duties required in such a position. (d) Report of at least ten cases of varied character that have been observed and treated by the applicant in his own practice. (e) A written and practical examination by the board.

For further information application should be made to Dr. William H. Wilder, 122 S. Michigan Ave., Chicago.

AMERICAN BOARD OF OTOLARYNGOLOGY

This Board was organized in 1924 by appointment of two representatives from each of the following associations: The American Otological Society, the American Laryngological Association, the American Laryngological, Rhinological and Otological Society, the American Academy of Ophthalmology and Otolaryngology, and the Section of Laryngology, Otology and Rhinology of the American Medical Association.

THE CHIEF ACTIVITIES OF THE BOARD ARE: 1. To establish standards of fitness to practice otolaryngology. 2. To investigate and prepare lists of medical schools, hospitals and private instructors recognized as competent to give the required training in otolaryngology. 3. To arrange, control and conduct examinations to test the qualifications of those who desire to practice otolaryngology and to confer a certificate on those who meet the established standards.

These activities proceed from the object of the corporation which is stated in the articles of incorporation to be: "The object of the corporation shall be to elevate the standard of otolaryngology, to familiarize the public with its aims and ideals, to protect the public against irresponsible and unqualified practitioners, to receive applications for examination in otolaryngology, to conduct examinations of applicants, to issue certificates of qualification in otolaryngology and to perform such duties as will advance the cause of otolaryngology."

EXAMINATIONS.—Examinations will be held bi-annually at, or near, the time and place of meeting of the American Medical Association, and of the American Academy of Ophthalmology and Otolaryngology. An extra examination is sometimes held provided the class of applicants is large enough to warrant the expense incurred.

FEES.—Fee for the examination is $25.00 and must accompany the application blank. No application will receive consideration until fee is received.

Application must be made on special blanks which may be procured from the secretary, and must be returned to the secretary, together with any other required credentials. If the candidate fails in an examination he will be admitted to a second examination after one year but within three years, and must give sixty days' notice of his intention to appear for re-examination. If a candidate who has failed does not appear for re-examination before the expiration of three years, he will be required to make a new application and pay the fee of twenty-five dollars before re-examination. An applicant, having failed twice, must file a new applicantion and pay an additional fee of $25.00.

APPLICANTS.—Applicants for examination and for the certificate of the board are divided into three classes according to the length of time they have practiced Otolaryngology.

Class I. Those who have practiced Otolaryngology fifteen years or more.

Class II. Those who have practiced Otolaryngology seven years and less than fifteen years.

Class III. Those who have practiced Otolaryngology less than seven years.

The following general requirements are demanded by the board: (1) For all classes, high ethical and medical standing in their communities, and also a medical degree satisfactory to the board. (2) Formal application on an official blank with two letters of endorsement by well-known Otolaryngologists. (3) Case histories may also be requested, at the discretion of the board.

The additional requirements for the three classes are as follows:

Class I. The board will determine from the applicant's training, published records, and professional work in his community, whether further examination will be necessary before conferring its certificate. Case histories may also be required if, in the judgment of the board, they be desirable.

Class II. Report of twenty-five cases that have been observed and treated by the applicant.

Class III. A degree from a medical school of high standing, satisfactory to the board of examiners. It is preferable that applicants in this class show they have had a year of clinical experience in a general hospital following four years in a medical school preliminary to special study of Otolaryngology and service as an Ear, Nose and Throat intern.

No examination will be given to applicants who have been in actual practice of Otolaryngology for less than one year.

For further information application should be made to Dr. W. P. Wherry, 107 S. 17th St., Omaha.

Free from the unpalatable qualities of plain cod liver oil

Maltine

WITH COD LIVER OIL

is an antirachitic and a food

Maltine with Cod Liver Oil is an effective agent in preventing rickets, and it also has the food value of malt—maltose, dextrose and dextrin. Thirty per cent of this preparation is cod liver oil. Seventy per cent of it is a concentrated extract of barley, wheat and oats and their mineral salts.

Children respond to the health-building properties of this pure, dependable product. It is readily digested and it is much more palatable than plain cod liver oil.

Other Maltine Combinations:

Maltine with Cod Liver Oil

Maltine Plain

Maltine with Cascara Sagrada

Malto-Yerbine

Maltine with Creosote

Maltine Ferrated

Maltine Malt Soup Extract

Florence B. Sturges, manager of Le Petit Gourmet Restaurant, Chicago, is an expert dietician. She knows well the value of hot Quaker Oats at breakfast to prepare for the day's work.

What You Eat for Breakfast

determines what you do before lunch

Statistics recently compiled prove that your breakfast has a direct effect on what you accomplish in the 4 most important hours of the day

WHETHER you are leading an active physical life out-of-doors or an active mental life indoors, you spend your greatest amount of energy before noon.

If you are not "on your toes" *in the morning,* properly rested and nourished, the rest of the day is of little consequence.

This demonstrates what dieticians have been urging for years: the need of a hot cereal breakfast regularly. Not merely a large breakfast—but a breakfast that scientifically combines, in balanced ration, the food elements that promote growth, replace waste tissue and create energy.

"Balance" in food

Such a food is Quaker Oats, the best-balanced cereal grown. Oatmeal is the classic example of a perfectly-balanced whole grain cereal. It loses *none* of its original food value during milling. Quaker Oats is not only highly nutritious, but it has a flavor and creamy richness that appeal to children and grown-ups alike.

You need protein in ample quantity. Quaker Oats is 16% protein—the element that replaces muscular wastage and builds up tissues. It excels wheat or rice or cornmeal in its protein content.

16% is protein—PLUS...

Your body needs minerals, vitamins and carbohydrate. Quaker Oats gives you minerals to build bone and promote growth. Vitamin B is ample. And 65% is carbohydrate, to supply energy. It retains the roughage to help eliminate laxatives.

Quaker Oats thus offers, deliciously served, the elements of food you need to ward off morning fatigue—properly balanced for perfect assimilation. Served hot and savory, it is one of the most delightful, as well as nourishing, breakfasts known.

Quick Quaker—the world's fastest hot breakfast

Your grocer has 2 kinds of Quaker Oats. That which you have always known and *Quick Quaker,* which cooks in 2½ to 5 minutes, making the richest breakfast quickest, too.

MEDICAL PRACTICE ACT OF ALABAMA

Political Code of Alabama, 1923, Chapter 52, Article 1.

Section 2836. BOARD OF EXAMINERS: The Board of Censors of the Medical Association of the State of Alabama, as constituted under the laws now in force, or which may hereafter be in force, is constituted a State Board of Medical Examiners, and is charged with the duties and clothed with the powers hereinafter prescribed.

Sec. 2837. EXAMINATIONS: An applicant for a certificate of qualification to treat diseases of human beings by any system of treatment whatsover shall, according to rules prescribed by the Medical Association of the State of Alabama, be examined, in writing, by the State Board of Medical Examiners, in the following named branches of medical learning, to-wit: Chemistry, anatomy, physiology, etiology, pathology, symptomatology and diagnosis of diseases; obstetrics and obstetrical operations, gynecology, major and minor surgery, physical diagnosis, diseases of the eye, ear, nose and throat; and hygiene and medical jurisprudence. All applicants coming before the board for examination, except as hereinafter specified, must present before registration, a diploma showing graduation from a medical college which requires two years of collegiate work including physics, chemistry and biology as a pre-requisite for admission to that college of medicine. Said medical college must have an adequate number of full time teachers in the fundamental branches of the medical sciences—anatomy, physiology, physiological chemistry, bacteriology and pathology. It must also have adequate laboratory facilities, a serviceable library and museum which are close by and accessible to the students, and sufficient hospital and dispensary material conveniently located and under the control of the medical faculty.

In the case of applicants who are graduates of schools of osteopathy, chiropractics or any other schools of mechanotherapy, all other educational qualifications shall be waived. Such applicants shall not be examined in major surgery, therapeutics, nor methods of treatment. If said applicant shall obtain an average of 75% in the branches set forth in the first sentence of this section, with the exception of major surgery, there shall be issued to said applicant a certificate which shall entitle the holder thereof to treat diseases of human beings by means of mechanotherapy according to the methods taught in the specific school, the teaching of which he proposes to practice, but shall not entitle him (or her) to practice major surgery or to prescribe or administer drugs.

Sec. 2838. APPLICATIONS: An applicant shall, before being permitted to enter upon an examination, fill out an application blank, giving his name, age, and residence, college and date of graduation, (if a graduate), references and such other data as the State Board of Medical Examiners may require. The applicant shall make affidavit that he is the person he represents himself to be, and that he will faithfully observe all rules governing the examination. Any member of the State Board of Medical Examiners, or the supervisors of examinations appointed by said board, may administer the oath prescribed. The board shall have the right to refuse to examine a person whose reputation is such as to render him unworthy of membership in the medical profession.

Sec. 2839. CERTIFICATE: When an applicant who has undergone examination shows such a standard of proficiency in the branches of medical learning enumerated in Section 2837 of this Code as has been or may be fixed by the Medical Association of the State of Alabama, a certificate of qualification, in form to be presented by the said association, shall be issued to the applicant, which certificate shall entitle the holder thereof to treat any diseases of human beings he may be called upon to treat in accordance with the teachings of the school or sect of medicine to which he belongs.

Sec. 2840. SUBJECTS EXEMPTED: When an applicant states in writing that he does not propose to practice major surgery, said applicant shall be exempt from examination in said branch of major surgery, and should his proficiency in the other branches of medical learning named in Section 2837 of this Code reach the standard established by the Medical Association of the State of Alabama, a certificate of qualification in form to be prescribed by said association, shall be issued to him, which certificate shall entitle him to treat any diseases of human beings he may be called upon to treat in accordance with the teachings of the school or sect of medicine to which he belongs; but the holder shall not be entitled to perform the operation of major surgery, and this restriction shall appear on the face of the certificate.

Sec. 2841. RE EXAMINATIONS: When an applicant fails to attain the standard of proficiency prescribed by the State Medical Association his examination shall be deemed unsuccessful. Such applicant shall, however, be entitled to another examination at any time after the expiration of six months from the date of the preceding examination.

Sec. 2842. MUST FILE CERTIFICATE: A physician who receives a certificate of qualification shall within ten days after locating in a county, file such certificate in the office of the judge of probate of such county for record, and should said physician remove his residence to another county he shall within said time have his certificate recorded in that county. Any failure on the part of the holder of a certificate of qualification to comply with the provisions of this section within ten days after written notice so to do by the chairman of the county board of health shall render such certificate null and void. A physician may voluntarily surrender his certificate to the State Board of Medical Examiners if he does so in writing with two witnesses. Notice of such surrender shall be given by said board to the judge of probate of each county in which the certificate is recorded.

Sec. 2843. REGISTER OF PHYSICIANS: The judge of probate of a county shall provide a blank book, of suitable size, to be called the "Register of Physicians," in which book shall be recorded all certificates of qualification filed by the physicians of the county. The fee for recording each certificate shall be fifty cents. At some time between the 1st and 10th of January of each year the said judge of probate shall forward to the State Board of Medical Examiners a full report of the names of all physicians, together with their post-offices, whose certificates have been recorded in his office for the preceding year; and if any physician whose certificate was so recorded shall have moved from the county or shall have died, the place to which such physician has removed, if known, or the date of the death, as the case may be, shall be reported.

Sec. 2844. RECIPROCITY: The State Board of Medical Examiners may establish reciprocal relations with similar boards of other states in reference to the issuance of certificates of qualification, provided that such reciprocal relations shall not be established with the State Board of Examiners of any state that does not require examination upon substantially the same branches of medical learning as those enumerated in Section 2837 of this Code, and does not maintain a standard of proficiency at least equal to that maintained by the State Board of Medical Examiners of this State. When such reciprocal relations have been established a certificate of qualification may be issued without examination to a person who presents evidence that he has complied with the requirements of a reciprocating State Board of Medical Examiners, provided that on the face of such certificate a statement shall appear that it was issued pro forma and without examination.

Sec. 2845. PRACTICE IN NEIGHBORING COUNTIES: A physician who resides in an adjoining state, near the border of this state, shall be allowed the privilege of practicing in any county of this state into which his practice may extend without examination, if he holds a certificate of qualification from his own State Board of Medical Examiners and causes said certificate to be placed on record in the office of the judge of probate of the county or counties in this state into which his practice extends, but he shall not open an office, or establish a place in this state at which calls may be left for him. A similar privilege shall be accorded to a licensed physician of any state who may be called into this state in consultation with a physician, except that such consulting physician shall not be required to place his certificate of qualification on record.

Sec. 2846. EXEMPTIONS FROM EXAMINATION: The State Board of Medical Examiners may issue to surgeon, or assistant surgeon of the United States Army or Navy, or of the United States Public Health Service, a certificate of qualification without examination, provided that such surgeon or assistant surgeon presents to said board a commission, or other satisfactory evidence, showing that he is such medical officer; and may issue a certificate of qualification without examination to any one filing a certificate of proficiency issued by the National Examining Board; but upon the face of the certificate so issued it shall appear that the certificate was issued pro forma and without examination.

Sec. 2847. REVOKING CERTIFICATE OF QUALIFICATION TO PRACTICE MEDICINE: The State Board of Medical Examiners may revoke a physician's certificate of qualification to practice medicine for any of the following:

1. Using spiritous, vinous or malt liquors or morphin, opium, cocain or other stimulants or narcotics to such an extent as to render him unsafe or unreliable as a practitioner.

2. Being guilty of gross immorality that would tend to bring reproach upon the medical profession of the state.

3. Being guilty of unprofessional conduct of a character likely to deceive, defraud or injure the public in matters pertaining to health.

4. Advertising himself or his practice, whether through newspapers or other periodicals, or by circulars or otherwise, in such manner as tends to mislead or deceive the public in matters pertaining to health.

5. Inducing or aiding in inducing, or attempting or aiding in an attempt to induce a criminal abortion or a criminal miscarriage, or a criminal premature delivery of a woman, provided that inducing or aiding in inducing an abortion or a miscarriage or a premature delivery of a woman when done for the purpose of saving her life, shall not be deemed criminal, but before resorting to any of said methods of saving a woman's life the attending physician shall use due diligence to obtain the advice and help of one or more consulting physicians.

6. Performing an operation of major surgery when his certificate of qualification does not entitle him so to do.

7. Being convicted in any court anywhere, while holding a certificate of qualification to practice medicine, of any offense involving moral turpitude, or for violating any federal statute regulating the use or disposition of narcotics, whether committed under color of his professional duty, or connected therewith or not.

Sec. 2848. INVESTIGATION AS TO REVOCATION OF CERTIFICATE OF QUALIFICATION: Whenever written complaint is made to the State Board of Medical Examiners that a physician has committed any of the acts, or come within any of the disabilities, enumerated in the preceding section, the board shall hear and determine said complaint, the hearing to be held at such place or places in the state of Alabama and at such time or times as the board may decide upon from time to time, provided that the person whose qualification is under consideration may elect to have said hearing solely in the county in which he resided at the time the complaint was filed. The person whose qualification is under consideration shall have not less than twenty days' written notice of the time and place of the initial hearing, which notice shall be accompanied by a copy of the complaint.

Said notice may be served by any sheriff of the state of Alabama, or by any member of the Medical Association of the State of Alabama, and if served by a member of said association, the return of service shall be sworn to by said member before some officer authorized to administer affidavits. But if said person is out of the state, or evades service, or cannot be served in person, then the service may be made by mailing a copy of the complaint and of the notice to said person at his last known postoffice address in this state, and the return shall show that service has been made in this manner. The investigation shall be held with as little publicity as practicable, consistently with a fair and imparitial hearing, but said person may elect to have said hearing in public. At the hearing the complainant and the person whose qualification is under consideration, and any other person who may be permitted to do so by the board shall have the right to introduce all such oral testimony or written testimony, or both, as the board may deem relevant to the issues involved, and the right to be heard in person, or by counsel, or both. The board may permit the complaint to be amended but no amendment shall be permitted that is not germane to the charge or charges sought to be amended or that materially alters the nature of any offense charged, or that of any essential specification under a charge. The board shall have the right to determine all questions as to the sufficiency of the complaint, as to the procedure and as to the admissibility and weight of evidence. If the person whose qualification is under consideration absents himself, the hearing may proceed in his absence.

Sec. 2849. WITNESSES; HOW SUMMONED AND SWORN: To any such hearing witnesses may be subpoenaed by the board on its own motion, or on demand of either side by subpoenas signed by the chairman of the Board of Medical Examiners, or by the person at the time discharging the duties of said officer, and such subpoenas may be served by any sheriff of the state of Alabama or by any member of the Medical Association of the State of Alabama, and if served by a member of the said association the return of service shall be sworn to by said member before some officer authorized to administer affidavits. Witnesses may be sworn by said chairman or by the person discharging the duties of said chairman.

Sec. 2850. WITNESS FAILING TO ATTEND; PENALTY; PROCEEDINGS FOR: Any witness failing to attend shall be liable to a penalty of not less than ten nor more than one hundred dollars to be recovered by the Board of Medical Examiners if the witness were summoned on behalf of the complainant, or by the person whose qualification is under consideration if the witness were summoned on his behalf, by suit in any court of competent jurisdiction. In any such suit the witness may offer in bar of said suit, and have the validity thereof passed upon, any excuse he may have for such non-attendance. In any such suit the return on the subpoena and a certificate of the non-attendance of the witness by the chairman of the Board of Medical Examiners, or the person at the time discharging the duties of said chairman, shall respectfully be prima facie evidence of said service of subpoena and said non-attendance.

Sec. 2851. COMPENSATION OF WITNESSES: Any witness attending any such hearing shall immediately upon his discharge as a witness be paid by the board two dollars ($2) per day for his attendance and the actual cost of his transportation to and from the place of hearing not exceeding three (3) cents for each mile traveled, to be paid out of the funds of the State Board of Health.

Sec. 2852. DEPOSIT REQUIRED OF PARTY TO PROCEEDING: If the board is of the opinion that the number of subpoenas desired by said person whose qualification is under consideration is unreasonable it may, for the witnesses above what it considers a reasonable number, require of said person a deposit with which to pay the mileage and per diem of said witnesses. After the hearing the board may return to said person that portion of said deposit which was for witnesses whose evidence shows that they were not unreasonably summoned.

Sec. 2853. TESTIMONY BY DEPOSITION TAKEN: Evidence by deposition may also be taken, the commission being issued by the chairman of the board, and the law and practice as to depositions in courts shall be followed in all reasonable respects and no such deposition shall be suppressed if fairly taken and no injustice will result from its admission.

Sec. 2854. LICENSE REVOKED: Whenever it has been established by the judgment of a court of competent jurisdiction that a physician has committed any of the acts or come within any of the disabilities enumerated in Section 2847, the filing of a certified copy of such judgment with the board shall be sufficient to justify the revocation without further hearing, unless the board is of the opinion that fairness to said physician requires that a regular hearing be held.

Sec. 2855. APPEAL; RIGHT AND TIME OF: An appeal may be taken to the circuit court or court of like jurisdiction of the county in which the person whose certificate is ordered revoked from any order revoking a certificate of qualification made by said board within thirty (30) days after the rendition thereof.

Sec. 2856. STATEMENT SETTING FORTH FACTS AND ORDER REVOKING CERTIFICATE: Any person desiring to take an appeal under this section shall within thirty (30) days after such order revoking such certificate has been made, file in the office of the clerk of the court to which such appeal is taken a statement in writing setting forth the fact that such order revoking such certificate has been made, and the ground or grounds upon which such order revoking such certificate was made and the names and residences of the persons constituting such board, and shall also file with such written statement a bond to be approved by the clerk of such court conditioned to pay the costs of the appeal if judgment be rendered against the party making such appeal.

Sec. 2857. CITATION TO CHAIRMAN OF BOARD: The clerk of such court shall issue a citation to the chairman or acting chairman of such board requiring him on behalf of such board to appear before such court at a time to be named in such citation, not earlier than twenty days after the service of such citation and not later than the next succeeding session of such court, provided that such appeal is not taken within thirty (30) days next preceding the succeeding session of such court, in which event such citation may be made returnable to the next session of the court to be held after such succeeding session.

Sec. 2858. DOCKETING CLAUSE: If an appeal is taken under the provisions of this chapter the cause shall be docketed in the name of the chairman of such board as plaintiff, with the name of the party whose certificate has been revoked as defendant.

Sec. 2859. ISSUE FOR TRIAL; HOW MADE UP: The plaintiff in such cause shall, under the direction of the board, file in said court a written statement signed by him as chairman or by the attorney of the board, setting forth specifically the charges against the said defendant and the reasons why the certificate of qualification should remain revoked, and the defendant shall take issue thereon by pleading the general issue.

Sec. 2860. TRIAL BY JUDGE WITHOUT JURY; JUDGMENT TO BE RENDERED: On appeal the judge shall hear both the law and the facts and if judgment in such cause is rendered in favor of the plaintiff the court shall enter a judgment affirming such order revoking such certificate and shall tax the defendant with the costs of such cause; if judgment is rendered in favor of the defendant the court shall make an order vacating such order revoking such certificate and shall tax the costs of such cause against the plaintiff.

Sec. 2861. JURY TRIAL; HOW DEMANDED: Upon a demand in such court in writing by either party to said cause all the issues of fact in said cause shall be submitted to a jury to be selected, empanelled and sworn as other juries are selected, empanelled and sworn in civil cases.

Sec. 2862. APPEAL TO SUPREME COURT: The plaintiff or defendant may appeal to the supreme court of Alabama from any judgment rendered in said cause by said court in the same manner as appeals are now taken to the supreme court in civil cases. Upon such appeal there shall be furnished in the bill of exceptions a complete statement of all the evidence taken in the trial of the cause in the court below, and the supreme court shall upon such evidence render final judgment in the cause, either by affirming the judgment, or by reversing and rendering such judgment as the supreme court may deem proper in the case.

Sec. 2863. REVOCATION AND REPORT TO JUDGES OF PROBATE: The Board of Medical Examiners of the State of Alabama shall not order the revocation of the certificate of qualification of a physician unless at least eight (8) members of the board are present at the time such order is made, nor then if two or more of those present vote against such order. Whenever the State Board of Medical Examiners decides to revoke a certificate of qualification said board shall issue an order of revocation and shall give written notice thereof to the judges of probate of the counties in which such certificate is recorded, but if said Board of Medical Examiners receives written notice of appeal from its decision in accordance with the preceding section it shall withhold said notice of revocation from such judges of probate until such time as the result of the appeal becomes known.

Sec. 2864. ENTRY OF RECORD IN PROBATE OFFICE: Whenever a judge of probate receives a written notice from the State Board of Medical Examiners that a certificate of qualification of a physician which is on record in his office has been revoked he shall cause an entry to be made on the margin of such recorded certificate to the effect that upon the order of the State Board of Medical Examiners the certificate has been revoked and entering at the same time the date of revocation.

Sec. 2865. ENTRY OF REVOCATION OF LICENSE: If a judge of probate receives notice from the State Board of Medical Examiners that the certificate of qualification of a physician residing in his county has been revoked, and if the certificate of qualification of such physician has never been placed on record in his office, he shall cause notice of the revocation of such certificate to be spread on the record book in which the certificate of qualification of physicians in the county are recorded.

Sec. 2866. EFFECT OF REVOCATION; NEW CERTIFICATE: Whenever the certificate of qualification of a physician has been revoked it shall be unlawful for him to practice medicine in this state, but the State Board of Medical Examiners may issue to such physician, either with or without re-examination, a new certificate of qualification, whenever it deems such course safe and just. Upon receipt of such new certificate of qualification such physician may re-enter upon the practice of medicine.

Sec. 2867. PLACE OF EXAMINATION: All examinations under this chapter shall be conducted at Montgomery, and the State Board of Medical Examiners shall fix the time at which examinations shall be held, and not less than two examinations shall be held annually.

Sec. 2868. FEE: The fee for an examination shall be ten dollars ($10), which amount must be paid in advance of the examination and to such person as the board may authorize to receipt therefor. A fee shall not be returned to an unsuccessful applicant, but such applicant shall be entitled to a second examination without paying an additional fee, provided such second examination is obtained within one year after the date of the first examination.

Sec. 2869. DISPOSITION OF FEES: After defraying all expenses of holding an examination, such as furnishing blanks, paper, postage, certificates, etc., the services of supervisors, clerical help, etc., the remaining funds shall be equally divided among the ten members of the State Board of Medical Examiners.

Sec. 2870. COMPENSATION FOR SERVICES WHEN CERTIFICATE NOT RECORDED: A physician whose certificate of qualification is not on record in the county in which he resides shall not be entitled to recover at law any compensation for services rendered in treating diseases of human beings.

Sec. 2871. RECORDS OF EXAMINATIONS: The State Board of Medical Examiners shall keep complete records of all examinations held by it, giving the name, age, residence, college, and date of graduation, (if a graduate), of such applicant examined, together with the results of such examination, which record shall be open to inspection. The said Board of Medical Examiners shall also keep complete minutes of all of its proceedings, which minutes shall be so preserved as to be easily accessible should occasion arise for referring to them.

Sec. 2872. ADMINISTERING HOME REMEDIES; EMERGENCIES: Nothing in this chapter shall prohibit the administration of domestic remedies in a family by any member thereof, or prohibit any person from rendering service to a sick or injured person in an emergency, provided that the person rendering such service does not pursue the occupation of a physician.

CRIMINAL CODE OF ALABAMA, 1923, CHAPTER 207

Sec. 5191. PRACTICING MEDICINE WITHOUT LICENSE; PENALTY FOR: Any person who treats, or offers to treat diseases of human beings in this state by any system of treatment, whatsoever, without having obtained a certificate of qualification from the State Board of Medical Examiners, shall be guilty of a misdemeanor, and upon conviction, shall be fined for each offense, not less than fifty ($50) nor more than five hundred dollars ($500), and may be imprisoned for not less than one month nor more than three months. And where indictments are preferred by a grand jury, such cases shall only be tried in the court wherein the indictment is preferred and shall not be transferred to any other court.

Sec. 5192. Sec. 5193. PENALTY FOR SELLING OR BUYING PATIENTS: Any person who buys or sells a patient within the meaning of this chapter, as defined in the next preceding section, shall be guilty of a misdemeanor and, upon conviction, shall be fined for the first offense, not less than twenty-five dollars ($25), nor more than five hundred dollars ($500), and for the second offense or any subsequent offense, shall be fined not less than five hundred dollars ($500), nor more than one thousand dollars ($1000), and may also in the discretion of the court, or jury trying the case, be imprisoned in the penitentiary for not less than one nor more than five years; and in addition thereto, his license to practice medicine or surgery in this state shall be by the court trying the case cancelled and annulled, and it shall ever thereafter be unlawful for such person to practice medicine or surgery in this state.

> Professor Russell L. Cecil of Cornell University, said to the New York Academy of Medicine in an address on arthritis, "I think the climate is a big factor, one, unfortunately, that we can't resort to as much as we would like. Patients who can afford it may be sent out to Arizona where there are a number of Sanitaria at the present time, and in that hot, dry atmosphere they make recovery much more rapidly than in our moist climate here."

FOR chronic arthritis, the surgical forms of tuberculosis, anemia, sinusitis, asthma, chronic bronchitis, cardiovascular-renal conditions, hypertension, selected nervous fatigue states and other chronic medical conditions, this institution enjoys unique advantages of location, equipment and operative staff. Patients with the open form of pulmonary tuberculosis are not received.

The patient's dose of radiations is measured with precision by means of the solar radiometer, and every accepted therapeutic measure is utilized in meeting individual requirements. Five sun terraces have wind screens of vita glass. Environmental conditions are automatically graphed—temperature, humidity, barometric pressure and air motion. Complete physical and hydrotherapy, x-ray, electrocardiograph, dental, and other special equipment. Clinical laboratories for blood chemistry, serology and bacteriology. New quarter of a million dollar Institute of Research.

Patients enjoy every conceivable convenience in private apartments with porches and terraces. The cuisine is an outstanding feature, each item being under the supervision of a trained dietitian.

Any member of said board may administer oaths in all matters pertaining to the duties of said board, and the board shall have authority to take evidence in any matter cognizable by it.

Sec. 4738. DEFINITION OF PRACTICE: Any person shall be regarded as practicing medicine within the meaning of this Act who shall, within this state, (a) by advertisement, or by any notice, sign or other indication, or by any statement, printed, written or oral, in public or in private, made, done or procured by himself or herself, or any other, at his or her request, for him or her, claim, announce, make known or pretend his or her ability or willingness to diagnosticate, or prognosticate, any human diseases, ills, deformities, defects, wounds or injuries; (b) or who shall so advertise or make known or claim his or her ability or willingness to prescribe or administer any drug, medicine, treatment, method or practice, or to perform any operation, or manipulation, or to apply any apparatus, or application, for cure, amelioration, correction, reduction or modification of any human disease, ill, deformity, defect, wound or injury, for hire, fee, compensation or reward, promised, offered, expected, received or accepted, directly or indirectly; (c) or who shall, within this state, diagnosticate or prognosticate any human disease, ill, deformity, defect, wound, or injury, for hire, fee, reward or compensation, promised, offered, expected, received or accepted, directly or indirectly; (d) or who shall within the state prescribe or administer any drug, medicine, treatment, method or practice, or perform any operation or manipulation, or apply any apparatus or appliance for the cure, alleviation, amelioration, correction, reduction or modification of any human disease, ill, deformity, defect, wound, or injury, for hire, fee, compensation or reward, promised, offered, expected, received or accepted, directly or indirectly; (e) or who shall act as the agent of any person, firm or corporation, in the practice of medicine as hereinbefore set forth; (f) except it be in the advertisement or practice of dentistry, midwifery or pharmacy, or in the usual business of opticians, or of vendors of dental or surgical instruments, apparatus and appliances. Practicing medicine within the meaning of this Act is construed to include the practice of osteopathy.

Sec. 4739. FORMS OF CERTIFICATES—REQUIREMENTS: Three forms of certificates shall be issued by said board under the seal thereof and signed by the president and the secretary; first, a certificate authorizing the holder thereof to practice medicine and surgery; second, a certificate authorizing the holder thereof to practice osteopathy; third, a reciprocity certificate under the provisions hereinafter specified. Any of these certificates, on being recorded in the office of the County Recorder, as hereinafter provided, shall constitute the holder thereof a duly licensed practitioner in accordance with the provisions of his certificate.

In order to procure a certificate to practice medicine and surgery, the applicant for such certificate must file with said board, at least two weeks prior to a regular meeting thereof, satisfactory testimonials of good moral character, and a diploma issued by some legally chartered medical school, the requirements of which shall have been, at the time of granting such diploma, in no particular less than those prescribed by the Association of American Medical Colleges for that year, or satisfactory evidence of having possessed such diploma; and he must also file with said diploma an application sworn to before some person authorized to administer oaths, stating that he is the person named in said diploma, that he is the lawful holder thereof, and that the same was procured in the regular course of instruction and examination, without fraud or misrepresentation. The said application shall be made upon a blank furnished by said board, and it shall contain such information concerning the medical instructions and the preliminary education of the applicant as said board may by rule provide. Applicants who have failed to meet the above requirements shall be rejected. Applicants for a certificate to practice osteopathy shall be subject to the above regulations, except that in place of the diploma hereinbefore referred to, they shall be required to file a diploma from a legally chartered college of osteopathy, having a course of instruction of at least twenty months, requiring actual attendance, and after 1908, of three years of nine months each, and including the studies examined upon under this Act.

Applicants for a certificate to practice any other system or mode of treatment not in this Act referred to except the practice of chiropractic, shall be subject to the above regulations, except that in (sic) the diplomas hereinbefore referred to they shall be required to file a diploma from a legally chartered college of the system or mode of treatment which the applicant claims or intends to follow.

In addition to the requirements above set forth, all applicants for certificates except as hereinafter provided, must be personally examined by said boards as to their qualifications. The examination shall be conducted in the English language, shall be practical in character and designed to discover the applicant's fitness to practice his profession, and shall be, in whole or in part, in writing, on the following fundamental subjects, to wit: anatomy, histology, gynecology, pathology, bacteriology, chemistry and toxicology, physiology, obstetrics, general diagnosis, hygiene. Examinations in each subject shall consist of not less than ten questions, answers to which shall be marked upon a scale of zero to ten. All applicants must obtain not less than a general average of 75 per cent, and not less than 60 per cent. in any one subject; provided, that applicants who can show five years of reputable practice shall be granted a credit of 5 per cent. on the general average, and 5 per cent. additional for each subsequent ten years of such practice and shall receive not less than 50 per cent. on any one subject.

The examination papers shall form a part of the records of the board and shall be kept on file by the secretary for a period of one year after each examination. In said examinations the applicants shall be known and designated by numbers only, and the names attached to the numbers shall be kept secret until after the board has finally voted upon the applications. The secretary of the board shall in no instance participate as an examiner in any examination held by the board.

And provided further, that any applicant for a certificate to practice medicine and surgery shall be granted a certificate (to be designated "Reciprocity Certificate"), without such examination, if he or she file with said board the testimonials of good moral character and the diploma, (or the evidence of possession of such), and the application, all as hereinbefore required of any applicant; and shall present and file with the board a certificate or license (or satisfactory evidence of the possession of such) to practice medicine or surgery, which certificate or license has been issued upon and after examination to said applicant by any state or territory of the United States, the District of Columbia, where the requirements for the granting of such certificate or license are at least equal to those in force in Arizona at that time, or by the National Board of Medical Examiners, and which certificate shall be accompanied by a further certificate, issued by the medical officer or board issuing the certificate or license first named, or by a certificate issued by the medical officer or board of the jurisdiction wherein the applicant last practiced, that the applicant at the time of the issuance of said last named certificate was an ethical practitioner and has practiced medicine and surgery for at least three (3) years immediately prior to the issuance of said certificate; and further provided that such applicant for a reciprocity certificate or license, who shall otherwise comply with the provisions hereof, and who shall file with said board evidence of an honorable discharge from the Medical Corps of the Army or Navy of the United States, shall not be required to furnish character testimonials or file said additional certificate relating to ethical practice for said three-year period. Any applicant for a reciprocity certificate to practice medicine and surgery who shall present a certificate or license issued by any foreign country, and who otherwise complies with the provisions hereof, may, within the discretion of the board, be granted such reciprocity certificate. The fee for certificates of this class shall be one hundred ($100) dollars, which amount shall be deposited with the board at the time of filing the credentials. In case these credentials are held by the board to be insufficient, seventy-five ($75) dollars of this deposit shall be returned to the applicant, the remaning twenty-five ($25) dollars constituting the fee of the board for examining into the said credentials.

Provided further, that the board may, at its discretion whenever the services of an applicant are needed as an emergency in any community, grant to a graduate of any recognized medical school, a temporary permit to practice medicine and surgery in said community, such temporary permit to be valid only until the next regular meeting of the board. The fee for such temporary permit shall be twenty-five ($25) dollars.

Sec. 4740. FEES: Each applicant on making application shall pay to the secretary of the board a fee of twenty-five dollars, ($25), which shall be paid to the treasurer of the board by said secretary. In case the applicant's credentials are insufficient, or in case he does not desire to take the examination, the sum of ten dollars, ($10), shall be retained, the remainder of the fee being returnable on application.

Sec. 4741. OFFICIAL RECORDS: Said board shall keep an official record of all its proceedings, a part of which record shall consist of a register of all applicants for certificates under this Act, with the result of each applicant and examination. Said record shall be evidence of all the proceedings of said board which are set out therein.

Sec. 4742. RECORDING CERTIFICATES: Every person holding a certificate authorizing him to practice medicine and surgery, or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, must have it recorded in the office of the county recorder of the county in which the holder of said certificate is practicing his profession, and the fact of such recording shall be endorsed on the certificate by the county recorder recording the same. Every such person, on each change of his residence, must have his certificate recorded in the county to which he shall have changed his residence. The absence of such record shall be prima facie evidence of the want of possession of such certificate, and any person, holding a certificate who shall practice medicine or surgery or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, or who shall attempt to practice medicine or surgery or osteopathy, or any other system or mode of treating the sick or afflicted, in this state, without first having filed his certificate with the county recorder as herein provided, shall be deemed guilty of a misdemeanor and shall be punished by a fine of not less than twenty-five dollars ($25) nor more than one hundred dollars ($100) or by imprisonment for not less than thirty (30) days nor more than sixty (60) days, or by both such fine and imprisonment.

Sec. 4743. COUNTY RECORD: The county recorder shall keep, in a book provided for the purpose, a complete list of the certificates recorded by him, with the date of the record; and said book shall be open to public inspection during his office hours.

Sec. 4744. REVOCATION: UNPROFESSIONAL CONDUCT: Said board must refuse a certificate to any applicant guilty of unprofessional conduct; but before such refusal the applicant must be cited by citation, signed by the secretary of the board, and sealed with its seal. No such citation shall be issued except upon a sworn complaint filed with the secretary of the board, charging the applicant with having been guilty of unprofessional conduct, and setting forth the particular acts constituting such unprofessional conduct. On the filing of such complaint the secretary must forthwith issue a citation and make the same returnable at the next session of said board occurring at least thirty days next after filing the complaint. Such citation shall notify the applicant of the time and place, when and where the matter of said unprofessional conduct shall be heard, the particular unprofessional conduct with which the applicant is charged, and that the applicant shall file his written answer, under oath, within twenty days next after the service on him of said citation, or default will be taken against him and his application for a certificate be refused. The attendance of witnesses at such hearing shall be compelled by subpoena issued by the secretary of the board, under its seal; and said secretary shall in no case refuse to issue any such subpoena, upon a fee of twenty cents being paid him for such subpoena. Said citation and said subpoenas shall be served in accordance with the statutes of the state then in force as to service of citations and subpoenas generally, and all provisions of the statutes of this state then in force relating to subpoenas are hereby made applicable to the subpoenas provided for herein. If any person refuses to obey a subpoena served upon him in accordance with the statutes of this state then in force providing for the manner of serving subpoenas, the fact of such refusal shall be certified by the secretary of said board, under the seal thereof, to the superior court of the county in which the service was had, and said court shall thereupon proceed to hear said matter in accordance with the statutes of this state then in force as to contempts for disobedience of process of the court; and should said court find that the subpoena has been legally served, and that the party so served has wilfully disobeyed the same, it shall proceed to impose such penalty as provided in cases of contempt of court. In all cases of alleged unprofessional conduct arising under this Act, depositions of witnesses may be taken, the same as in civil cases, and all the provisions of the statutes of this state then in force as to the taking of depositions are hereby made applicable to the taking of depositions under this Act. If the applicant shall fail to file with the secretary of said board his answer, under oath, to the charges made against him, within twenty days after service on him of said citation or within such further time as the board may give him, and the charges on their face be deemed sufficient by the board, default shall be entered against him, and his application refused. If the charges on their face be deemed sufficient by the board, and issue be joined thereon by answer, the board shall proceed to determine the matter, and to that end shall hear such evidence as may be adduced before it; and if it appear to the satisfaction of the board that the applicant is guilty as charged, no certificate shall be issued to him. No certificate shall be refused on the ground of unprofessional conduct unless the applicant has been guilty of such conduct within two years next preceding his application. Whenever any holder of a certificate herein provided for is guilty of unprofessional conduct, as the same is defined in this Act, and the said unprofessional conduct has been brought to the attention of the board granting said certificate, in the manner hereinafter pointed out, or whenever a certificate has been procured by fraud or misrepresentation, or issued by mistake, it shall be their duty to, and they must, revoke the same at once, and the holder of said certificate shall not be permitted to practice medicine, surgery or osteopathy, or any other system or mode of treating the sick or afflicted in this state. But no such revocation shall be made unless such holder is cited to appear and the same proceedings are had as is hereinafter provided in this section in case of refusal to issue certificates. Said secretary, in all cases of revocation, shall enter on his register the fact of such revocation and shall certify the fact of such revocation, under the seal of the board to the county recorder of the county in which the certificate of the person whose certificate has been revoked has been recorded; and said recorder must thereupon write upon the margin or across the face of his register of the certificate of such person, the following: "This certificate was revoked on the..........day of..........." giving the day, month and year of such revocation in accordance with said certification to him by said secretary. The record of such revocation so made by said county recorder shall be prima facie evidence of the fact thereof, and of the regularity of all the proceedings of said board in the matter of said revocation. From the time of the revocation of a certificate the holder thereof shall be disqualified from practicing medicine or surgery, osteopathy, or any other system or mode of treating the sick or afflicted in this state.

The words "unprofessional conduct," as used in this Act, are declared to mean:

First: The procuring, or aiding or abetting in procuring, a criminal abortion.

Second: The wilful betrayal of a professional secret.

Third: All advertising of medical business which is intended, or has a tendency, to deceive the public or impose upon credulous or ignorant persons, and so be harmful or injurious to the public morals or safety.

Fourth: All advertising of any medicine or of any means whereby the monthly periods of women can be regulated or the menses reestablished if suppressed.

Fifth: Conviction of any offense involving moral turpitude, in which case the record of such conviction shall be conclusive evidence.

Sixth: Habitual intemperance in the use of alcohol or narcotic drugs.

Seventh: The personation of another licensed practitioner of a like or different name.

Sec. 4745. POWERS OF BOARD: Said board shall have the power to employ legal counsel and clerical assistance and to fix the salaries of the same and to incur such other expenses as may be deemed necessary to carry into effect the provisions of this Act. It shall also fix the salary of the secretary, not to exceed the sum of twelve hundred dollars ($1,200) per annum, and the sum to be paid to the other members of said board, not to exceed ten dollars ($10) per diem each, for each and every day of actual service in the discharge of official duties; and said board may, in its discretion, add to said sum necessary traveling expenses. The expense of said board, including the salary of secretary, shall not exceed the amount of fees collected by said board as herein provided. All money in excess of the actual expenses of the board shall be paid annually into the state treasury.

Sec. 4746. PENALTIES: Any person who shall practice or attempt to practice, or advertise, or hold himself out as practicing, medicine or surgery, osteopathy, or any other system or mode of treating the sick or afflicted, as defined in this Act, in this state, without having, at the time of so doing, a valid, unrevoked certificate, as provided in this Act, shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than one hundred dollars ($100), nor more than five hundred dollars ($500), or by imprisonment for a term of not less than sixty (60) days, nor more than six (6) months, or by both such fine and imprisonment. In each such conviction the fine shall be paid, when collected, to the state treasurer, and shall constitute a special fund for the prosecution of illegal practitioners as defined in this Act, the said fund to be paid to the said board upon warrants drawn therefor by its secretary, and the said board is authorized to prosecute all persons guilty of a violation of the provisions of this section.

Sec. 4747. FRAUDULENT RECORD: Every person filing for record, or attempting to file for record, the certificate issued to another, falsely claiming himself to be the person entitled to the same, shall be guilty of a felony, and upon conviction thereof, shall be subject to such penalties as are provided by the laws of this state for the crime of forgery.

Sec. 4748. IMPERSONATING MEMBER: Any person assuming to act as a member of the State Board of Medical Examiners without so being a member, or who shall sign, or subscribe, or issue or cause to be issued, or seal, or cause to be sealed, a certificate authorizing any person to practice medicine or surgery, or osteopathy, or any other system or mode, of treating the sick or afflicted, in this state, shall be guilty of a felony, and shall be punished by imprisonment in the state penitentiary for a term of not more than five years.

Sec. 4749. WHO MAY PRACTICE: Any person who holds an unrevoked certificate from the Board of Medical Examiners created by "An Act to Amend an Act to Regulate the Practice of Medicine in Arizona," which was approved March 18, 1897, or from the board of examiners created under the provisions of Chapter 1, of Title 53, of the Revised Statutes of Arizona, 1901, or from the board of medical examiners created by an act of the legislative assembly of the Territory of Arizona, entitled, "An Act to Regulate the Practice of Medicine," approved March 19, 1903, shall be entitled to practice medicine and surgery in this state the same as if such certificate has been issued under this Act, and any osteopath who has qualifications as set forth in Sec. 4739 and who shall establish to the satisfaction of the board that he or she was actively engaged in practice in the state at the date of introduction of this bill shall be entitled to receive a certificate to practice osteopathy.

Sec. 4750. EXEMPTION: Nothing in this Act shall be so construed as to inhibit service in the case of emergency, or to the domestic administration of family remedies; nor shall this Act apply to any commissioned medical officer in the United States Army, Navy, or Public Health Service, in the discharge of his official duties; nor to any licensed dentist when engaged exclusively in the practice of dentistry. Nor shall this Act apply to any practitioner from another state or territory, when in actual consultation with a licensed practitioner of this state, if such practitioner is, at the time of such consultation, a licensed practitioner of the state or territory in which he resides; provided, that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of this state. Nor shall this Act be construed so as to discriminate against any particular school of medicine or surgery or osteopathy, or any other system or mode of treating the sick or afflicted, or to interfere in any way with the practice of religion; provided, that nothing herein shall be held to apply to or to regulate any kind of treatment by prayer; and provided further, that all sanitary laws and regulations regarding contagious or infectious diseases, applicable to practitioners of medicine, shall be held to apply equally to the practice of any system or mode of treating the sick or afflicted.

MEDICAL PRACTICE ACT OF ARKANSAS

Digest of the Statutes of Arkansas 1921, Chapter 141; As Amended Acts 1923, Act 244.

Section 8234. MEMBERS OF BOARD; HOW APPOINTED: The medical examiners herein provided for shall consist of three boards: One of physicians and surgeons, recommended by "The Homeopathic Medical Society of Arkansas"; one of physicians and surgeons, recommended by "The Arkansas Eclectic Medical Society"; and one of physicians and surgeons, recommended by "The Arkansas Medical Society."

There shall be seven (7) members of each board appointed so as to have one member from each congressional district upon each board. The appointment shall be made by the governor from a list of names presented by the respective medical societies.

Sec. 8235. VACANCIES: The members first appointed on the boards shall be divided into two (2) classes; the first class to consist of four (4) members appointed for two (2) years; the second class of three (3) members shall be appointed for four (4) years, and thereafter all appointments shall be for four (4) years.

Vacancies in the said boards shall be filled as they occur by appointments from lists furnished as provided. No member shall be appointed for more than two terms in succession; and no member, or professor, or teacher in a medical college or school, or university, having a medical department, shall be appointed upon the boards.

Sec. 8236. ORGANIZATION: Within thirty days after their appointment the respective boards shall meet and organize by electing a president, secretary and treasurer of their respective boards.

The treasurer of each of the said boards shall give bond in such amount as may be designated by the board, conditioned for the faithful disbursement of all moneys coming into his hands as such treasurer.

Each of the said boards shall have a common seal. The president and secretary shall have power to administer oaths for the purposes of this Act and the boards shall make and adopt all necessary rules, regulations and by-laws not inconsistent with the laws of this state or of the United States, whereby to perform the duties and to transact the business required under the provisions of this Act. The members of the boards shall, before entering upon the discharge of their duties, take the oath prescribed by the constitution of the state for state officers.

Sec. 8237. MEETINGS: The said boards shall hold two regular stated meetings per year, to-wit: The second Tuesdays in May and November and at such places as a majority may agree upon, consulting the convenience of the boards and applicants for examination and certificates.

Sec. 8238. TITLE OF BOARD: The boards shall be styled and known as the "Homeopathic State Medical Board," the "Eclectic State Medical Board," and the "State Medical Board of the Arkansas Medical Society."

The "Homeopathic State Medical Board" shall examine all applicants who have graduated from homeopathic medical schools; the "Eclectic State Medical Board" shall examine all applicants who have graduated from eclectic medical schools; and the "State Medical Board of the Arkansas Medical Society" shall examine all other applicants.

The boards shall act separately and independently of each other, and whenever this Act refers to and defines the duties of the board, it shall be construed as referring to their acting separately, as well as independently of each other.

Sec. 8239. WHO MAY PRACTICE: Every person now practicing medicine in this state on March 24, 1903, who has not already complied with the provisions of this Act, shall, within ninety days after this Act takes effect, prepare a written statement, giving his name, postoffice address and county; when and where he received authority to practice medicine in this state; where his diploma or certificate is on record; and, if a diploma, from what school or medical college issued; such statement shall be sworn to before some officer authorized to administer oaths, and shall be forwarded to the secretary of the board representing his school of medicine.

If it shall appear from such statement that such person was regularly authorized to practice medicine under the then existing laws, the said board shall register the name of such person in their list of accredited physicians, and issue to such person a certificate that his name has been placed upon such list. If it shall appear from the statement that such person has not been legally authorized to practice medicine, or that his diploma is not from a reputable medical school or college, or, if from any other source of information, it shall appear that the statement is false, the board shall refuse to issue to such person a certificate, and shall notify such person in writing of their refusal and the reason therefor. If such person shall show to the satisfaction of the board by affidavit or otherwise that he has complied with the laws of this state regulating the practice of medicine, they shall in that event issue to him a certificate. Upon the failure of such person to make the proof required by this section, he shall, before continuing in the practice, make application and stand examination required by the following provisions of this Act.

Sec. 8240. PENALTIES: Any person who shall wilfully and knowingly make any false statement to the board concerning his authority to practice medicine shall be deemed guilty of perjury and punished, as now provided by law for those found guilty of perjury, and may be indicted and tried for such offense, either in the county where the affidavit to such statement was made, of where such person resides.

Sec. 8241. EXAMINATIONS: Every person residing in the state, or coming into it, of the age of twenty-one years, who has not heretofore been licensed to practice medicine under the existing laws, making application to register under the provisions of this Act for the purpose of practicing medicine in this state, shall first make application to the secretary of the board representing the school of medicine from which he graduated, and his application shall be accompanied by a fee of fifteen dollars ($15), this fee being for examination and registration before the board. The applicant shall present to the board satisfactory evidence of graduation from a reputable medical school, and a school shall be considered reputable within the meaning of this Act whose entrance requirements and course of instruction are as high as those adopted by the better class of medical schools of the United States. Such examinations may be written or oral, and shall be of a practical character and conducted on the scientific branches only, and shall include anatomy, physiology, medical chemistry, materia medica, therapeutics, theory and practice of medicine, pathology, bacteriology, surgery, obstetrics, gynecology and hygiene. All questions and answers, with grades attached, shall be preserved by the secretary for one year. If, in the opinion of the board, the applicant possesses the necessary qualifications, the board shall issue to him a certificate.

The boards may, at their discretion, arrange for reciprocity in license with the authorities of states and territories having requirements equal to those established by the boards, and every person desiring license under reciprocity must make application to the secretary of the board representing the school of medicine from which he graduated.

License may be granted applicants for licenses under such reciprocity on payment of twenty-five dollars ($25).

Sec. 8242. REFUSAL OR REVOCATION OF LICENSE: The boards may refuse to grant or may revoke a license for the following causes, to wit:

(a) Chronic and persistent inebriety.

(b) The practice of criminal abortion, either as principal or abetter.

(c) Conviction of the crime involving moral turpitude.

(d) Publicly advertising special ability to treat or cure chronic and incurable diseases.

(e) The representation to the board of any license, certificate or diploma which was illegally or fraudulently obtained, or the practice of fraud or deception in passing the examination. In complaints for violating the provisions of this section, the accused person shall be furnished with a copy of the complaint, and given a hearing before said board in person or by attorney, and any person after such refusing or revocation of license, who shall attempt or continue the practice of medicine, shall be subject to the penalties hereinabove described.

Sec. 8243. GROUNDS FOR REVOKING LICENSE: When any physician or surgeon practicing their respective professions within the State of Arkansas, shall by the habitual indulgence in the use of alcohol, opium, cocaine, or any such agent to such an extent as to render himself incapable thereby of exercising that degree of skill and judgment in the treatment of his patients which the moral trust and confidence reposed in him demands, [he] shall be deemed guilty of a misdemeanor and his license shall at once be revoked, said license to be revoked by the State Board of Medical Examiners under which said physician or surgeon may have received his license to practice, upon the proper proof being made before said board, said license not to be renewed under one year, and not then until said physician or surgeon shall furnish satisfactory evidence of having ceased his indulgences.

Sec. 8244. CERTIFICATE TO BE RECORDED: Every person receiving a certificate from the board, whether practicing now or hereafter licensed to practice, shall have such certificate recorded in the office of the county clerk where he is practicing or proposes to practice; and when such person moves to another county for the purpose of continuing the practice of medicine, he shall file for record with the county clerk of the county to which he moves a certified copy of his certificate.

Sec. 8245. TEMPORARY PERMITS: To prevent delay and inconvenience, any member of the board applied to, provided that the board applied to, represents the school of medicine from which the applicant graduated, may grant a temporary permit to practice, upon the payment of the fee required for applicants, and after a satisfactory examination, such permit shall not continue in force longer than the next regular meeting of the board, and shall not be granted for a longer period than two months in advance of the next regular and stated meeting of the board.

Sec. 8246. PENALTIES: Every person who shall practice or shall attempt to practice medicine in any of its branches, or who shall perform or attempt to perform any surgical operation for any person, or upon any person within this state without first having complied with the provisions of this Act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than twenty-five dollars ($25) nor more than five hundred dollars ($500), or by imprisonment in the county jail for a period of not less than ten days nor more than ninety days, or by both fine and imprisonment, and each day of such practice shall constitute a separate offense.

Provided, however, that this shall not apply to persons now engaged in the practice of medicine until ninety days after the passage of this Act, the time allowed them for procuring their certificate.

Sec. 8247. ITINERANTS: Any itinerant vendor of any drug, nostrum, ointment or application of any kind, intended for the treatment of disease or injury, or who may, by writing, print or other methods, profess to cure or treat diseases or deformity by any drug, nostrum, manipulation or other expedient, in this state, shall be deemed to be in violation of this law and punished as provided. This does not apply to persons who obtain certificates as herein provided.

Sec. 8248. DEFINITION OF PRACTICE: Any person shall be regarded as practicing medicine, in any of its departments, within the meaning of this Act, who shall append M.D. or M.B. to his name, or, repeatedly prescribe or direct for the use of any person or persons any drug or medicine or other agency for the treatment, cure or relief of any bodily injury, deformity or disease.

Provided, that nothing in this Act shall be so construed as to prevent any person from administering domestic remedies without receiving any compensation therefor, and nothing herein shall apply to the so-called midwife.

Sec. 8249. COMPENSATION OF MEMBERS: The secretary of the board shall provide the board with blank books, certificates and such stationery as is necessary for the transaction of the business pertaining to their duties. All moneys received by the board shall be disbursed by the treasurer upon warrant of the secretary countersigned by the president of the board.

The members of the board shall receive as a compensation for their services the sum of ten dollars ($10) per day for every day actually engaged in the discharge of their duties under this Act, and the secretaries shall receive such additional salary as may be fixed and agreed upon by the boards.

The members of the boards shall pay their own traveling expenses and hotel bills. The members of the boards shall look to and be dependent entirely upon the fees provided herein for their compensation and all other expenses in connection with their duties.

It shall not be lawful for the said boards, or any members thereof, in any manner whatever, or for any purpose, to charge or obligate the state for the payment of any money whatever. If, after paying all legitimate obligations of the board for stamps, printing, salary of secretary, etc., there should not be sufficient sums on hand to pay each member his per diem in full, the amount shall be prorated; but if at the end of the year there should be a greater revenue than sufficient to meet all obligations, such surplus shall remain in the treasury to be used in expenditure of the boards during the succeeding year.

Sec. 8250. ANNUAL REPORTS: The boards shall annually file with the governor a report of their transactions during the year, giving the names of all to whom they have granted certificates during the year, naming the system of medicine practiced by each, and shall in such report show the amount of money received and from what source, the amount expended and for what purpose, and shall embody in their report any other matters or facts deemed expedient, and make such recommendations for the improvement of the practice of medicine in this state as may be deemed advisable.

If the boards shall have sufficient funds on hand to pay for the same, they shall have said reports printed in pamphlet form and furnish each physician in this state with a copy thereof.

. . . .

Sec. 8278. ADVERTISING OR SOLICITING; PROFESSIONAL SECRECY; PENALTIES: Any physician, surgeon or person engaged in the practice of medicine in the state, who shall, for the purpose of procuring patients, employ any solicitor, capper or drummer, or shall subsidize or employ any hotel or boarding-house, or advertise his business or remedies by untruthful or improbable statements made in his advertisements, circulars or cards or who shall obtain any fee or compensation from any one by any assurance or promise that a manifestly incurable disease is curable, or who shall wilfully betray or expose any professional secret learned by him from his patient or patron to the detriment of such patient or patron, or who shall become an habitual drunkard, and continue the practice of medicine or surgery while such habitual drunkard, or administer any medicine or perform any operation while drunk, shall be deemed guilty of a misdemeanor, and on conviction be punished by a fine of not less than twenty-five dollars ($25) and not more than two hundred dollars ($200), and by a revocation of his license to practice medicine and surgery, which revocation shall be adjudged and pronounced by the same court in which he is tried and convicted, and at the same time.

Sec. 8279. CONVICTION OF CRIME; PENALTIES: Whenever any physician and surgeon, or person engaged in the practice of medicine or surgery in this state, shall be convicted of any crime or misdemeanor, involving moral turpitude, in addition to the other penalty or penalties imposed upon him shall be added a revocation of his license to practice medicine and surgery.

Sec. 8280. ABORTION: If any physician or surgeon or other person engaged in the practice of medicine shall commit the crime of abortion, or aid or abet in the commission thereof; provided, this section shall not apply to any abortion produced by any regular practicing physician for the purpose of saving the mother's life, he shall be adjudged guilty of a felony and punished by imprisonment in the state penitentiary for a period of not less than one year nor more than five years and his license to practice shall be revoked.

Sec. 8281. CONVICTION OF CRIME; REVOCATION OF LICENSE: Any physician or surgeon or person whose license to practice shall, on conviction under the provisions of this Act, be revoked, may appeal from the judgment of conviction, but shall not, pending the appeal, be permitted to practice either medicine or surgery, and if he does so practice, or attempts or offers to so practice pending the appeal, he shall be punished in the same manner and to the same extent as if he had never had any license to practice.

Sec. 8282. NEW LICENSE: After the expiration of one year from the date of the revocation of the license of any physician and surgeon, under this Act, he may appeal to the proper medical board for a new license, and may be relicensed, if he shall satisfy the board that he is qualified, has reformed and is worthy.

The Hillcrest Sanatorium is situated in the Sierra Madre Mountains between the cities of La Crescenta and Tujunga, and sixteen miles from Los Angeles. At an elevation of 2300 feet above sea level the Sanatorium commands a view to the East of over seventy-five miles and to the West of about forty miles, escaping about 80% of the fog that the lower elevations are subject to. United States Weather Bureau, Washington, reports this location one of the most desirable in the United States for the treatment of affections of throat and chest. Flowers, rare shrubs, lawns and trees comprise a beautiful park of ten acres and oak covered foothills form a background to the Sanatorium that has come to be recognized as one of the finest in the West.

The Hillcrest Sanatorium specializes in the scientific treatment of Tuberculosis in all its forms. While special stress is laid on rest, fresh air, good food, contentment, graduated exercise and other hygienic measures, there are other procedures which are of value in certain cases—such as pneumothorax and ultraviolet light treatments—for which the sanatorium is well equipped.

Each building has specially constructed compartments for giving air baths and regulated heliotherapy in indicated cases under physician's orders. Each suite is equipped for local and long distance telephone communication, also with headsets relaying radio entertainment from a central plant in the Administration Building. Each building is equipped with a diet kitchen from which specially prescribed meals and nourishment are served. The Sanatorium is supplied with pure mountain and spring water. The medical care is under the direct supervision of a resident physician and the nursing care under a superintendent and corps of carefully selected and highly trained nurses. The Sanatorium is open to all patients of physicians who are eligible to membership in the American Medical Association.

MEDICAL PRACTICE ACT OF CALIFORNIA

Deering's General Laws of California, 1923, Title 355, Act 4807; as Amended Statutes of 1925, Page 282; Statutes of 1927, chapters 59, 63, 66, 92, 122, 639

Section 1. BOARD OF MEDICAL EXAMINERS: A board of medical examiners to consist of ten members, and to be known as the "Board of Medical Examiners of the State of California," is hereby created and established. The governor shall appoint the members of the board, each of whom shall have been a citizen of this state for at least five years next preceding his appointment. Each of the members shall be appointed from among persons who hold licenses under any of the medical practice acts of this state. The governor shall fill by appointment all vacancies on the board. The term of office of each member shall be four years; provided, that of the first board appointed, three members shall be appointed for one year, two for two years, two for three years and three for four years, and that thereafter all appointments shall be for four years, except that appointments to fill vacancies shall be for the unexpired term only. No person in any manner owning any interest in any college, school or institution engaged in medical instruction shall be appointed on the board, nor shall more than one member of the board be appointed from the faculty of any one university, college, or other educational institution. The governor shall have power to remove from office any member of the board for neglect of duty required by this act, for incompetency, or for unprofessional conduct. Each member of the board shall, before entering upon the duties of his office, take the constitutional oath of office.

Sec. 2. ORGANIZATION: The board shall be organized on or before the first Tuesday of September, 1913, by electing from its number a president, vice-president and a secretary who shall also be the treasurer, who shall hold their respective positions during the pleasure of the board. The board shall hold one meeting annually beginning on the third Monday in October in the city of Sacramento and at least two additional meetings annually, one of which shall be held in the city of Los Angeles and the other in the city of San Francisco, with power of adjournment from time to time until its business is concluded; provided, however, that examinations of applications for certificates may, in the discretion of the board, be conducted in any part of the state designated by the board. Special meetings of the board may be held at such time and place as the board may designate. Notice of each regular or special meeting shall be given twice a week for two weeks next preceding each meeting in one daily paper published in the city of San Francisco, one published in the city of Sacramento, and one published in the city of Los Angeles, which notice shall also specify the time and place of holding the examination of applicants. The secretary of the board upon an authorization from the president of the board or the chairman of a committee, may call meetings of any duly appointed committee of the board at a specified time and place and it shall not be necessary to advertise such committee meetings. The board shall receive through its secretary applications for certificates provided to be issued under this act and shall, on or before the first day of January of each year, transmit to the governor a full report of all its proceedings together with a report of its receipts and disbursements. The board shall on or before the first day of January of each year, compile and may thereafter publish and sell a complete directory giving the addresses of all persons within the State of California who hold unrevoked licenses to practice under any medical practice act of the state of California, which license shall in any manner authorize the treatment of human beings for diseases, injuries, deformities, or any other physical or mental conditions. The board is hereby authorized to require said persons to furnish such information as it may deem necessary to enable it to compile the directory. The directory shall contain in addition to the names and addresses of said persons, the names and symbols indicating the title, name or names, school or schools, which such person has attended and from which graduated, the date of issuance of the license, the present residence of said person and a statement of the form of certificate held. The directory shall be prima facie evidence of the right of the person or persons named therein to practice. It shall be the duty of every person holding a license to practice under any medical act of this state, or who may hereafter be so licensed to practice, to report immediately each and every change of residence, giving both the old and the new address.

To comply with the provisions of this section relating to the compilation, publication and sale of a directory in addition to the fee required for the filing of any application, or the issuance of any certificate hereinafter provided for, each licentiate granted a certificate under the provisions of this act, or any preceding medical practice act of the state of California, shall, on or before the first day of January of each year, pay to the secretary-treasurer of the Board of Medical Examiners an annual tax and registration fee of one dollar ($1.00). Receipt or acknowledgment of payment by the secretary-treasurer shall be evidence that the holder and possessor of such certificate is entitled to practice the particular system for which he was granted such certificate for a period of one year from the first day of January; but notwithstanding the possession by any certificate holder of such receipt or acknowledgment of payment, the license or certificate issued to such licentiate to practice any system recognized by this or any preceding medical practice act of the state of California, may, at any time, be forfeited or revoked for a violation of the further provisions and requirements of this Act. The failure, neglect and refusal of any person holding a license or certificate to practice a system under this or any preceding medical practice act of the state of California, to pay said annual tax of one dollar ($1.00) during the time his or her license remains in force, shall, after a period of sixty days from the first day of January of each year, ipso facto, work a forfeiture of his or her license or certificate, and it shall not be restored except upon the written application therefor, and the payment to the said board of a fee of ten dollars ($10.00) except that such licentiate who fails, refuses or neglects to pay such annual tax within a period of sixty days after the first day of January of each year shall not be required to submit to an examination for the reissuance of such certificate. It shall be the duty of the executive officer herein designated as the secretary-treasurer of said Board of Medical Examiners to mail to the last known address of each licentiate who has paid said annual tax a copy of the said directory and all new issues thereof and copies of all supplements thereto. The receipts of the said annual tax referred to herein shall be paid into the contingent fund of the Board of Medical Examiners of California, and after the expenses of issuing said directories have been paid, in the event that there shall be a surplus of such funds, the board may from time to time, in its discretion, apply said surplus for any other expenses incurred by the board under the provisions of this Act; provided, that this Act shall not be construed as affecting or limiting the powers or duties of the "board of osteopathic examiners of the State of California" under the "osteopathic act" approved November 7, 1922.

Sec. 3. OFFICE: The office of the board shall be in the city of Sacramento. Sub-offices may be established in Los Angeles and San Francisco and such records as may be necessary may be transferred temporarily to such sub-offices. Legal proceedings against the board may be instituted in any one of said three cities.

Sec. 4. RULES: The board may from time to time adopt such rules as may be necessary to enable it to carry into effect the provisions of this Act. It shall require the affirmative vote of seven members of said board to carry any motion or resolution, to adopt any rules, to pass any measure, or to authorize the issuance of any certificate as in this Act provided. Any member of the board may administer oaths in all matters pertaining to the duties of the board, and the board shall have authority to take evidence in any matter cognizable by it. The board may in its discretion appoint or designate any qualified and competent person or persons to give the whole or any portion of any examination as provided in this Act; such person or persons need not be a member of the Board of Medical Examiners and shall be designated as a commissioner on examination and shall be subject to the same rules and regulations and entitled to the same fee and remuneration as if a member of the board. The board shall keep an official record of all its proceedings, a part of which record shall consist of a register of all applicants for certificates under this Act, together with the action of the board upon each application.

Sec. 5. AUTHORITY TO PROSECUTE: The board is authorized to prosecute all persons guilty of violation of the provisions of this Act. It shall have the power to employ legal counsel for such purpose, and may also employ inspectors, special agents and investigators and such clerical assistance as it may deem necessary to carry into effect the provisions of this Act. The board may fix the compensation to be paid for such service and may incur such other expenses as it may deem necessary. It shall also fix the salary of the secretary, and also the sum to be paid to other members of the board, not to exceed ten dollars ($10.00) per diem each, for each and every day of actual service in the discharge of official duties; such service to include the attendance at special meetings of the board and committee meetings of the board and while actively engaged in the review of examination papers, based upon one per diem for each thirty papers or fraction thereof. Each member of the board shall make an affidavit before some duly authorized person in the State of California that such service has been actually performed; and the board may in its discretion add to said sum necessary traveling expenses.

Sec. 6. FUND: All fees collected on behalf of the Board of Medical Examiners, and all receipts of every kind and nature, shall be reported at the beginning of each month, for the month preceding, to the state controller, and at the same time the entire amount of such collections shall be paid into the state treasury, and shall be credited to a fund to be known as the Board of Medical Examiners' contingent fund, which fund is hereby created. Such contingent fund shall be for the uses of the Board of Medical Examiners and out of it shall be paid all salaries and all other expenses necessarily incurred in carrying into effect the provisions of this Act. An amount not to exceed three thousand dollars ($3,000) may be drawn from the contingent fund herein created, to be used as a revolving fund where cash advances are necessary; but expenditures from such revolving fund must be substantiated by vouchers and itemized statements at the end of each fiscal year, or at any other time when demand therefor is made by the board of control.

Sec. 7. FEES: Every applicant for a certificate shall pay to the secretary of the board a fee of twenty-five dollars ($25), which shall be paid to the treasurer of the board by said secretary. In case the applicant's credentials are insufficient or in case he does not desire to take the examination, the sum of ten dollars ($10.00) shall be retained, the remainder of the fee being returnable on application.

Sec. 8. FORMS OF CERTIFICATE: Four forms of certificates shall be issued by said board under the seal thereof and signed by the president and secretary; first, a certificate authorizing the holder thereof to use drugs or what are known as medical preparations in or upon human beings and to sever or penetrate the tissues of human beings and to use any and all other methods in the treatment of diseases, injuries, deformities, or other physical or mental conditions, which certificate shall be designated "physician and surgeon certificate"; second, a certificate authorizing the holder thereof to treat diseases, injuries, deformities, or other physical or mental conditions without the use of drugs or what are known as medical preparations and without in any manner severing or penetrating any of the tissues of human beings except the severing of the umbilical cord, which certificate shall be designated "drugless practitioner's certificate"; third, a certificate authorizing the holder thereof to practice chiropody. (b) Mechanical treatment shall be held to be the employment of any forcible means for the correction of any deformity of the foot or feet and shall not permit the treatment of fractures of the bones of the foot or feet or the application of splints or casts; provided, however, that mechanical treatment shall not include or prohibit the manufacture. the recommendation or sale of either corrective shoes or appliances for human feet. Fourth, a certificate to practice midwifery, which shall be in the form designated by the board and in conformity with this Act. Such certificate shall entitle the holder thereof to attend cases of childbirth. As used in this Act, the practice of midwifery means the furthering or undertaking by any person to assist a woman in normal childbirth, but it does not include at any childbirth the use of any instrument, except such instrument as is necessary in severing the umbilical cord, nor the assisting of childbirth by any artificial, forcible or mechanical means, nor the performance of any version, nor the removal of adherent placenta, nor the administering, prescribing, advising or employing in childbirth of any drug, other than a disinfectant or cathartic. The provisions hereof shall not authorize any midwife to practice medicine and surgery. A "reciprocity certificate" shall also be issued under the provisions hereinafter specified. Any of these certificates on being recorded in the office of the county clerk, as hereinafter provided, shall constitute the holder thereof a duly licensed practitioner in accordance with the provisions of this certificate.

Sec. 19. FRAUDULENT USE OF CERTIFICATE: Every person filing for record, or attempting to file for record, the certificate issued to another, falsely claiming himself to be the person named in or entitled to, such certificate, shall be guilty of a felony, and, upon conviction thereof, shall be subject to such penalties as are provided by the laws of this state for the crime of forgery.

Sec. 20. Sec. 21. PRIOR CERTIFICATES: Nothing in this Act shall be construed to prohibit the practice by any person holding an unrevoked certificate heretofore issued under or validated by any medical practice act of this state, but all such certificates may be revoked for unprofessional conduct in the same manner and upon the same grounds as if they had been issued under this Act.

Sec. 22. EXEMPTION: Nothing in this Act shall be construed to prohibit service in the case of emergency, or the domestic administration of family remedies; nor shall this Act apply to any commissioned medical officer in the United States Army, Navy or Marine Hospital or Public Health Service, in the discharge of his official duties; nor to any licensed dentist when engaged exclusively in the practice of dentistry. Nor shall this Act be construed so as to discriminate against any particular school of medicine or surgery, or any other treatment, nor to regulate, prohibit or to apply to any kind of treatment by prayer, nor to interfere in any way with the practice of religion. Nothing in this act shall be construed to prevent a student regularly matriculated in any legally chartered school or schools approved by the board from treating without compensation to such student the sick or afflicted as a part of his course of study.

Sec. 23. OTHER ACTS REPEALED: An act entitled "An act for the regulation of the practice of medicine and surgery, osteopathy, and other systems or modes of treating the sick or afflicted, in the state of California, and for the appointment of a Board of Medical Examiners in the matter of said regulation," approved March 14, 1907, as amended by a certain act approved March 19, 1909, as amended by a certain act approved May 1, 1911, is hereby repealed, and also all other acts and parts of acts in conflict with this Act are hereby repealed.

The fines or forfeitures of bail in any case wherein any person is charged with a violation of the provisions of this Act shall be paid upon the collection by the proper officer of the court seventy-five per cent. thereof to the state treasurer to be deposited to the credit of the contingent fund of the Board of Medical Examiners; Provided, that all fines and forfeitures of bail wherein any person is charged with a violation of the provisions of this act of which the board of osteopathic examiners of the state of California has jurisdiction, shall be paid upon the collection by the proper officer of the court seventy-five per cent thereof to the state treasurer to be deposited to the credit of the contingent fund of the said board of osteopathic examiners and such payment to said treasurer shall be made without placing such fine or forfeiture of bail in any special or contingent or general fund of any county, city and county, city or township.
